CANTON (O.,) Nov. 2.-On the eve of election Gov. McKinley feels seenely confident of success in the Presidential struggle which culminates omorrow. Throughout the excitement of the day, while the visiting delegates have come and gone, and the McKinley cottage has been besieged by long lines of enthusiastic, eager crowds, Gov. McKinley has maintained the calm, cheerful and confident air that has marked him throughout the cam

Mrs. McKinley was confined to her appartments, not yet up from an atack of la grippe, epidemic in the town, which has kept her in her room for the past week. Most of the day was passed by the major in greeting hundreds of callers, who kept coming in unorganized groups of a dozen or two from points far and near. Tonight the front of the house is

cobwebbed with wires. A host of special correspondents is already here. Thousands of people are thronging th street between the public square and the McKinley home. For twenty years, ever since he has been in public life, Maj. McKinley has spent the night before election in his town home, addressing his neighbors and friends. SOUND-MONEY DEMOCRATS. Staunch Defenders of the Country's

Best Interests-Their Work. BY ASSOCIATED PRESS WIRE CHICAGO, Nov. 2.- The Hon. William

D. Bynum, chairman of the National Gold Standard Democracy, made the following statement this afternoon: "I have every confidence in the result of the election tomorrow. I cannot be-lieve that the conservative forces which have combined to save the country from dishonor can be defeated by the opposing elements, however desperate they may be. Our campaign has bee almost wholly confined to the doubtfu

they may be. Our campaign has been almost wholly confined to the doubtful or close States, our principal work having been done in Minnesota, Michigan, Indiana, Kentucky, Tenessee, West Virginia, Missouri, Kansas and Nebraska. I feel sure all these States will declare for sound money, and if so the result will be due largely to the efforts of the sound-money Democrats.

"Had not the sound-money Democrats of the West and South come to the rescue of the issue at this critical moment, the result, to say the least, would have been exceedingly doubtful. We not only preserved the sound-money sentiment in the Democratic party, but ohecked the break from the Republican to the free-silver ranks, and nave been an important factor in building up a healthy sentiment in both partles. It was certainly a peculiar situation that required Democratic speakers to take the stump in behalf of true Democratic principles to influence Republicans to vote their own ticket. The action of the sound-money Democracy nas, unquestionably, had a very liberalizing influence on the leaders of the Republicans to the leaders of the Republicans of the Re

How the Republican States Loom

SAN FRANCISCO, Nov. 2.-The close the campaign in California f Democrats confident of carrying the State and the Republicans are also claiming California, but not so posi-tively as the Democrats. Frank Mc-Laughlin, chairman of the Republican State Central Committee, claims 10,000

majority for McKinley, while Chairman Alford, for the Democrats, claims 30,000 majority for Bryan. Many Republicans concede the State to Bryan by a small majority.

It is believed that San Francisco will reverse the majority for the Democrats two years ago of 11,000, and give McKinley a small majority. The Republicans claim 5000 majority in this city, while the Democrats make a similar claim for Bryan. Conservative Democrats and the Silverites claim the State for Bryan by smaller majorities than the Democratic State Committee officers.

than the Democratic State Committee officers.

W. P. Lawler of the Silver State Committee says Bryan will undoubtedly carry California, but says his majority is problematical. Gavin McNab predicts that Bryan will have at least 10,000 majority in the State outside of San Francisco. The Democrats claim all Congressmen except in the Fifth, where it is admitted that Loud, the Republican, has the best chance. The Republicans claim all Congressmen except Maguire, in the Fourth. The Democratic State Central Committee is positive that De Vries will defeat Grove Johnson in the Fourth District.

REPUBLICAN MONEY LIES

Bryan's Last Day of Campaigning The Popocratic Candidate Pursued by John P. Irish–Returns and Weather Prospects.

OF THE TIMES SPECIAL WIRE NEW YORK, Nov. 2 .- (Special Dis-It had been confidently announced that wealthy Popocrats would appear in the betting circles of this city tonight to cover all money offered on McKinley. They were to have had their pocket's bulging, with greenbacks, and money at last was to talk. Instead of this, the talk was by the same strident voices that have, been heard in the hotel cafes and corridors during the last fortnight. There were political speeches, shouts and bluffs, but com-

paratively little money could be found. There was a thrill of excitement when the rumor reached the Fifth-avenue Hotel that William R. Hearst had put up \$3500 against George Wheelock's \$5000 on the result in several of the Central States. Bryan's victory in any of the States of Iowa, Illinois and In-diana was to give Hearst \$5000. Wheelock said tonight: "I have a

small bet with Hearst, but it amounts to no such figures as were mentioned. The story probably started from my offer to Hearst of \$5000 to \$3500 that Mc-Kinley would carry Illinois and Michigan, but he would not take it. I have made many bets on the results, but I have never given better odds than 3½ to 1, and I do not care to do so tonight."

ate with him.

He dwelt in the main, however, upon national aspects of the campaign, and appealed to his hearers to support the cause upon the same general principles which he had advanced as essential in his speeches made in other similarly situated communities.

His two most telling speeches of the day were made at Hastings and Lincoln, though he made some short addresses which were pronounced by hisefriends as worthy to be classed as philippic in character. His strongest efforts were generally directed at crowds containing more than the usual number of persons decorated with gold badges. The demonstrations in the way of greeting and of applause were exceedingly cordial. Those who wore the yellow insignia treated him with entire respect, and in some instances applauded his utternaces.

At no time in the campaign has Bryan been in better physical or mental condition than he was for his closing day. He appeared to realize that he was nearing the end of an arduous siege and he did not make the usual effort to conserve his physical energies. He allowed his voice, which is still unimpaired, full range. He spent a greater time than ordinarily between speeches chatting with friends. In these conversations he did not display the least nervousness over the near approach of the campaign and so all William Boy is Whooping it Up Westward from Lincoln, Neb. YORK (Neb.,) Nov. 2.—At 7 o'clock YORK (Neb.,) Nov. 2.—At 7 o'clock this morning Bryan, was proceeding westward from Lincoln on his last day's work in the campaign. The sun had not risen when he reached the special train, and there were only comparatively few people gathered about the depot to see him off. These few, however, gave him an enthustastic shout as the train pulled out. The first stop was made at Seward, a Republican town, and fully half the crowdwore yellow badges.

Bryan was, however, respectfully received. The appearance of golden col-

wore yellow badges.

Bryan was, however, respectfully received. The appearance of golden colors in his own State seemed to put the candidate on his mettle, and while he talked only about ten minities, he delivered a very pointed address. Referring to the appearance of so many gold colors, he intimated has proper material for a farmer to use who who would display a gold badge was straw, for he said: "Under existing circumstances Wall street gets your wheat and leaves you nothing but straw."

His brief address was devoted largely to the denunciation of the Issue of bonds. Notwithstanding the large number of Republicans present, Bryan was liberally applauded. It was noticeable that some shouters were yellow badges.

He dwelt in his brief address upon the effects of the gold standard, especially upon the farming interests. His points were librarily applianded, notwithstanding the presence of many gold-badge wearers. Grand Island was the extreme western point of the day's tour and is the most western place visited by Bryan during the campaign. There was an excellent meeting there. The attendance was large, and the Bryan sentiment very strong, judging from the voofferous applause and absence of gold badges. Bryan talked for thirty minutes here, dwelling upon the importance of individual effort at the polls tomorrow, saying the result of the election might depend upon one vote. temorrow, saying the result of the election might depend upon one vote. He again appealed to the agricultural element to declare itself for a double standard as the most certain means of securing the return of prosperity, which was impossible under the existing circumstances. Applause was frequent and at times deafening, the volume of sound being greatly augmented by the tooting of a large thresher rigged up for the occasion. The return trip was begun at 11.30 o'clock. There were some yellow badges, but not nearly so many as at Seward. Bryan was introduced as the next President of the United States, and replied that it depended a great deal on how the people of Nebraska voted. This brought a great cheer, and assurance that the State is all right for him.

He said this year people had made the experiment of choosing the Presidential candidate from west of the Mississippi River and some people in Nebraska seemed very much afrasid that there would be a President from the West. His speech met a ready response from the farmers and laborers. The train slowed up as it went through Bradshaw and the few hundred people assembled at the depot cheered Bryan loudly.

OMAHA, Nov. 2.—It was almost midnight tonight when Bryan spoke the last public word incident to his campaign. He had then made seven speeches in Omaha, beginning at 7 o'clock in the evening, and had preceded the night's work with fifteen speeches made during the day, at the following places, all in the State of Specches made during the day, at the following places, all in the State of Nebraska: Seward, York, Aurora, Grand Island, Hastings, Harvard, Sarenville, Sutton, Grafton, Fairmount, Exeter, Friend, Dorchester, Crete and Lincoln. The last speech of the night was at Treighton's Operahouse, and this ended a campaign surpassing all others as regards the work done by a single man. It was after the theatrical performance

What Old Probabilities Will Do for

the Country.
WASHINGTON, Nov. 2.—The Weather

Bureau today issued the following special election-day bulletin:
"WASHINGTON, Monday, Nov. 2,
1896, 11 a.m.—Fair and pleasant weather with about normal temperature pre-vailing this morning in all the States except as follows: From two to four inches of snow have fallen over South Dakota and snow is still falling, with probability it will continue today and tonight. In North Dakota about two tonight. In North Dakota about two inches of snow has fallen in the southern central part of the State, and the conditions are favorable for more snowfall Tuesday, and in eastern Nebraska snow will probably fall. In Minnesota, Wisconsin and upper Michigan the weather is cloudy, with conditions strongly indicating an unpleasant day on Tuesday, with light rain or snow. "In lower Michigan the clouds are gathering and the conditions are favorable for warm weather today, with clouds and occasional showers. In Indiana, Illinois, Missouri and Iowa the weather is warm and pleasant today,

"I have stated that if I am elected I shall not be absent from you more than four years. When I stated it I meant it, and I want you to believe in my sincerity when I say so. I believe that the office is attended with duties so great, with responsibility so heavy that the man who occupies it ought to have no personal ambition beyond proving himself worthy of the confidence of those who elect him.

"If elected I shall consecrate four years of my life to the services of my country, feeling that when that is done all has been done in the way of honor that can be done, then I shall rejoice again to be a private citizen in this nation where to be a citizen is greater than to be a king.

"My friends, I want you to believe me when I say I have enjoyed the opportunity of defending bimetallism, that it is a righteous cause, and I want you to believe that I would rather stay among you as a private citizen and be permitted still to raise my voice against what I conceive to be a crime against the human race than to enjoy all the honors in Christendom if I had to join in the conspiracy. "If you are in earnest, I want your earnestness to be manifested in a clean sweep, and then, my friends, if by the suffrage of my countrymen I am made their chief executive, I will promise you that no power in this country or in any foreign land will prevent the restoration of the money of the Constitution among our people."

The West and not the East in Doubt This Year. CHICAGO, Nov. 2.-The public must be prepared for later telegraph service in tomorrow's election than usual Hitherto in the Presidential election The polis closed there at 4 o'clock, telegraph facilities were of the highest order, and the difference in time between that city and the West enabled the Associated Press practically to determine the result before midnight. This year interest will center chiefly in the States west of the Alleghenies and particularly the States west of the Missisppi. Much advantage in time is lost. As a rule the pools close at a later hour, and the telegraph facilities are comparatively limited.

In illinois there is a provision for amending the State Constitution and in Chicago another for the Issue of local bonds, both of which under the law must be counted first. This will necessarily involve some delay. In computing the returns, the comparisons for gains and losses will be made with the Presidential election of 1892. New York has been the pivotal State.

John T. Tipling of Lincoln, a commercial traveler riding in the caboose, was killed. The freight train had orders to sidetrack at this point, but the engine was stalled, and before a flagman could be sent out the special rashed into it. The special was provided with another engine and went on the road.

HIS SPELL-BINDING.

licans are in high feather, for, with the Reed meeting this afternoon and a monster parade this evening, the cause of gold wint up several points. Yellow is everywhere. Chrysanthemums of golden tinge are worn by the thousands, and are for sale on all sides. Merchants haye draped their windows with yellow silk, and one energetic haberdasher has had made up a stock of yellow neckties, which went like hot cakes. Business was at a standstill save with the norist and the haberdasher of the golden ties.

The parade was the largest ever seen in Oakland. The yellow badges signifying an intention to march, were worn by everybody, and gave the streets an appearance of a poppy-bedotted California field in spring. Many of the private homes were gaily decorated. Flags flew from the house-tons and pictures of McKniey, draped in yellow, hung at the windows.

It is estimated that there were 15.000 persons at the race-tracks before the speaking began. The grand-stand and its surroundings were beautifully decorated with yellow and red, white and blue bunting, as was also the speakers' stand.

The greeting accorded the man from Maine on entering the race-track was the most demonstrative ever witnessed on this side of the bay, and was deeply appreciated by the noted speaker.

The cremonies at the track were opened by a short address by W. H.

Chickering, who introduced Mr. Reed amid loud cheering, which lasted for several minutes, and only ceased when the latter began his opening remarks.

Mr. Reed spoke in part as follows:

"I thank you very kindly for this greeting. I cannot hardly help from feeling at home in California-for I was here when California was young. This audience reminds me very much of it. Because, when I was here, in the earlier days, this magnificent Oakland, so splendidly represented here today, was only a place of scrub oak and possibilities. Then small possibilities and much scrub oak.

"Then, too, I feel at home, for I find myself also surrounded by Maine men. There is a member of Congress here from Maine, from this district. We studied law together back in my town when we were both much younger. Then there is a Senator by my side. There is no need of saying that I know him well. Neither am I called upon to speak of the member, but I do so for I hope my old friend will be returned to Congress by the appreciation of his own worth. (Applause.)

"I came here to discuss some of the issues of the day with you. In order to make the world progress smoothly and advance, God has created men of two classes. One class is the pioneer and the inventor and that class, while on the other is the conservative multitude. Men often bring to us, especially in political life, theories and want us to test them. It costs something to test theories; therefore, all theories have to be submitted to the people of this country. Sometimes it happens that a theory comes into the world with a great deal of noise, and often goes out again silent. While the inventive class deserves all praise for what it has done a great deal of noise, and often goes out again silent. While the inventive class deserves all praise for what it has done, yet many of its members stand far ahead of their brains. (Laughter.)

"We had four years ago a lot of gen-tlemen that were full of ideas, but they turned out full of mistakes. We were in a fair condition four years ago. There was a chance for an honest man There was a chance for an honest man to get an honest day's work almost anywhere, especially in the State of California. Capital was at work, mills were open and men were struggling—not for jobs, but for higher wages. Some gentlemen saw these conditions and advanced a theory. Now, we are like the old Spanish grandee, who had the following epitaph over his grave: 'I was well—I wanted to be better—I took medicine, and here I am.' Fellow-citizens, you have had your medicine, and where are you?

"These gentlemen were mostly silver—"These gentlemen were mostly silver—"The most silver—"The most

cine, and where are you?

"These gentlemen were mostly silvertongued orators. They claimed to the world that they could make the heavenly Jerusalem descend, but they wanted the people to take care of it after it got here. They said, if you have things cheap you will be happy. They looked on us as consumers merely. I said to them at the time: 'Then, gentlemen, all we will have to do is to sit in a rocking-chair and consume.' These same gentlemen made arrangements to get all the productions somewhere else. They undertook to give

ments to get all the productions somewhere else. They undertook to give the fruit-bearing industry to our neighbors of the sunny clime; the steel industry to Germany, France and Great Britain, and so on. Fortunately for us, they were not able to do as badly as they tried to do. "In the House of Representatives of which Mr. Bryan was a member—not leader, for he never was that there-but with his consent, all these things were attempted. Now, gentlemen, don't be deceived about the issues of this compaign. There is no issue of bimetallism. Bimetallism is the adoption of gold and siver by the nations of the

compaign. There is no issue of bimetallism. Bimetallism is the adoption of gold and siver by the nations of the earth. That has never been tried. Whether it would be a success or not nobody can say. Probably the world would be ready to try it or the United States part of it would, but meantime nothing could be so suicidal as going from a gold basis that we know something about to a silver basis that we don't know anything about, because you certainly would be on either one or the other, and every man knows from the course of the price of silver in the past two or three years that it would be an uncertain business "Now, who wants to go on an uncertain basis? It is the class of men who make their bonds payable in gold, and, singularly enough, every patriot who wants the United States to go on a silver basis has taken the precaution to have every bond of his on a gold basis. He is ready to sacrifice his wife's relations in any war. He is ready to sacrifice he rest of you, but he takes care when the deluge comes to have a sittle boat of his own in which he sails off into the future. My friends, you had better keep in the same boat with these men's actions rather than be in the boat of their language. Actions are valuable. Language is the light motion of the air.

rather than be in the boat of their language. Actions are valuable. Language. Actions are valuable. Language is the light motion of the air. (Applause.)

"Now, I think (though I don't want to be vain about it.) if you will follow what I said this atternoon and what I have said this evening that just as likely as not you may land yourselves properly, and help your country and help yourself, and perhaps give us that chance for that prosperity which this country needs. It is going to have it, because this country is strong and great and is sure of final success. There is no other dependence than upon the good sense of the people. There is no light given us from heaven about this thing. We have got to wrestle with it ourselves, and this audience is an evidence that you are going to settle it right."

The Republican Strength Should Be About Six Million One Hundred and Seventy Thousand.

THIS IS NOT ALL OF THEM.

NUMEROUS CANVASSES SHOW DEM.

Allowances for Prohibition and Labor Tickets—A Plurality of a Million and a Half for Sound Money the Resultant.

(BY THE TIMES' SPECIAL WIRE.) NEW YORK, Nov. 2 .- (Special Dispatch.) The Tribune says a careful scrutiny of the votes by States shows that about 808,900 voters who had formerly acted with the Democratic party voted in 1894 for Republican Congressvoted in 1894 for Republican Congress-men. For present purposes it is not needful to give details nor to assume the calculation is precisely accurate. But it is easily demonstrable that not far from 400,000 such voters changed in the East, including Maryland, Dela-ware and West Virginia, about 270,000 in the Worts and vota 120,000 in the in the West, and over 130,000 in the South, mainly in the border States which are now contested.

Loss by the ordinary failure of the Republicans to vote at elections of subordinate importance masked part of this gain, but there are to be added by a natural increase of Republican strength in four years about 450,000 new voters, so the Republican strength, including the Democrats who voted for Republican Congressmen on the tariff issue, should be about 6,170,000, besides all that have been turned since 1894. About 300,000 votes will be thrown away as usual on the Prohibition and labor tickets, and an unknown number on the Propulst tickets for Bryaner.

ber on the Populist tickets for Bryan and Watson, where fusion has failed or has disgusted the Populists.

The Democratic strength, reckoning that cast for Cleveland less 800,000 turned over in 1894, and increased by the normal gain in four years, would have been about 5.070,000

All voting this year and canvasses in various States made by Republicans and National Democrats go to show that at least as much as a quarter of the Democratic force will refuse to sup port Bryan. As this loss is greater that the entire Populist vote, if the whole of it could be concentrated upon him, there is reason to expect his strength will fall more than 1,000,000 behind that of Mc-Kinley, besides a portion of the soundmoney Democrats who will vote directly for the Republican candidate in many States in order to put the result beyond doubt. If half of them should so vote, McKinley would receive from 6,700,000 votes upward, with a plurality over Bryan of more than 1,500,000. All canvasses have tended to prove

the Republican loss outside the silver States not recovered during the cam-paign of education on the silver ques-tion will be comparatively insignificent. There remains the problem how many workingmen, especially in the cities, where some labor organizations are in dangerous hands, have been diverted by the disloyal appeals made by Bryan to Socialist and Anarchist tendencies and by the influence of the leader. The evidence does not support the claim that such loss has been large. Against it is to be put the strong prob ability that more than half the Demo take care to make his defeat overwhelming by supporting McKinley di-

Dr. McLean to Be Relieved-Quong Ying Going Home to China—Pa cific Mail Rivalry—A Boy's Experiences.

(BY ASSOCIATED PRESS WIRE.) OAKLAND, Nov. 2.—Mrs. Sarah Mc-Allister, who claims to be a prophetess, is preaching the end of the world to Oakland people, and she has set that event for some day immediately after the election. She is telling this to Oak-

landers with all the vehemence, if not all the effect, of the famous Mrs. Woodworth, the "doom-dealer" of a few years ago.

Mrs. McAllister has opened headquarters at No. 706 Broadway, and there

she tells her story whenever she can secure an audience. She is holding little meetings, sometimes several times during the day, and she has gathered about her quite a number of followers, who look upon her as an inspired prophetess, and take her word for as much worth as those of the prophets

According to Mrs. McAllister there will be a great war immediately follow-ing the election. It will spread over the entire world, and will make neither the entire world, and will make neither life nor property safe. Some few of her followers have been so agitated by this terrible prophecy that they have sold all their worldly goods and converted them into cash. It must be confessed that their worldly goods did not amount to a great deal, and that the sudden sale did not cause a sump in the market, but nevertheless a number of those who are following the modern prophetess have decided that they will be satisfied with their little piles of coin, and have so sold everything they could get together.

Mrs. McAllister has advised her followers to take to the hills immediately after election, just as did Mrs. Woodworth. She says that they will be safe in the mountain fastnesses, and that after the cruel war is over they can return to, the cities, for at that time all human government will cease and the country will then be under a heavenly administration.

Rev. Charles R. Brown in Dr. Mc-Lean's chair.

A very large number of churches have been invited to the council, and the exercises will be very impressive, both Dr. McLean and Dr. Mooar, who preceded him in the pulpit of the First Congregational Church being assigned to important places on the programme. The event will call out the largest gathering of Bay Congregationalists for some time.

Dr. McLean was pastor of the church for twenty-four years, and built it up to the most unexampled prosperity. He resigned about a year ago, and the church experienced considerable dimeculty in selecting his successor, so hard was it for the people to be pleased with any other man. The council will be in large part a celebration of the twenty-fifth anniversary as pastor of Dr. McLean, who built up the big church until its membership passed the thousand mark. High-handed Dealings of the Authorities with American Prisoners—A Constant Cabling from Washington-Maceo

NEW YORK, Nov. 2-A special to the Herald from Jacksonville, Fla., says that Cuban leaders there and in Key West declare that they have reliable west declare that they have reliable information that the relations of the United States and Spain have reached a crisis, and that developments of great international importance in regard to Cuba may be expected within the next month.

a crisis, and that developments of great international importance in regard to Cuba may be expected within the next month.

Advices received here from Havana are to the effect that the departure of Consul-General Lee for Washington was caused by the crisis, and that his report to President Cleveland will be of such a character that it will almost certainly result in action being taken by the United States. It is understood that the case of the Competitor prisoners was the immediate cause of the departure of Gen. Lee.

The Spanish authorities have been disposed to proceed in a high-handed way in regard to those prisoners and without regard to those prisoners and without regard to treaty rights. After the court at Madrid set aside the sentence of death imposed on the prisoners by the first court-martial it was understood that they would be given a civil trial. Instead of this, nowever, Capt. Laborde, the American correspondnt Melton, and the other Competitor prisoners were recently summoned before, a naval court at Havana and required to file written declarations, as preliminary to a new court-martial. The prisoners, however, regused to make any statement save in the presence of Gen. Lee.

Gen. Lee had not been advised by Capt.-Gen. Weyler that the prisoners would be retired, but as soon as the Consul learned unofficially what was going on, and that the case had been called for military and not for civil

consul learned unofficially what was going on, and that the case had been called for military and not for civil consideration, he sent an energetic note to Capt.-Gen. Weyler protesting against any retrial not in accordance with the treaty stipulations and entering exceptions to the proceedings as inaugurated. Capt.-Gen. Weyler refused to make any direct response, pleading lack of authority to treat on diplomatic matters and questioning Gen. Lee's right to discuss matters which it had been the custom to submit to Madrid for settlement by the Amerito Madrid for settlement by the American Minister and the Spanish Foreign Office.

Gen. Lee and Secretary Olney were Gen. Lee and Secretary Olney were in constant cable correspondence about the matter, and the General was finally ordered to Washington. For diolomatic reasons Consul-General Lee would probably deny it, but it is a fact nevertheless that he said to an intimate friend before leaving for the United States: "It would not surprise me if I should return to Havana on a warship." warship."
The Cuban leaders here are jubilant,

as they say that the result will be either intervention by the United States or an ignominious back-down on the part of Spain, which would destroy what little prestige she has left.

MACEO AND THE LINE. HAVANA, Nov. 2.—(By Central American Cable.) The report that Antonio Maceo had crossed the mili-tary line after attacking Artemisa and being repulsed with great loss, according to the official account, is again denied. It is stated the insurgents upon this occasion acted without unison; dis-obeyed the orders; made no attack upon the forts and were unable to capture

the Spanish incumbents.

Maceo, a day after bombarding Arteafter he was defeated, that he was out of condition. This roused McAuliffe's ire and after roundly abusing each other the pair clinched for a good old-fashioned rough-and-tumble fight. The puglists were separated before any damage was done, however. Their match has been postponed until the end of the month.

Maceo, a day after bombarding Artemisa, in conversation with a manager of a firm near Mangas, Pinar del Rio, deplored the loss his forces sustained, and admitted it was no easy matter to cross the military line. The Spanish forces are slowly occupying the positions Maceo may have intended to use, and is said to be resting in order. and admitted it was no easy matter to cross the military line. The Spanish forces are slowly occupying the positions Maceo may have intended to use, and is said to be resting in order to care for the wounded. There are two versions of the whereabouts of Maceo. Section 538 of the Penal Code, approved March 10, 1883, "relating te misrepresentations are to circulation by proprietors of newspapers and periodicals, for the purpose of obtaining patronage," makes such misrepresentations a misdemennor. Thus any publisher guility of misrepresenting the circulation of his paper can be proceeded against by law.

Our pressroom and circulation books are open for the inspection books are open for the inspection of advertisers at all times, we also refer any advertisers or others who may desire to make further inquiry, to our agents (who are also agents for other Los Angeles papers), at the places named in the above list, for a verification of our statements in each tass.

The subscription price of The Times is inwariably 75 cents per month. No class or
clique are furnished it at a lower rate, no
copies are given away, and no unwilling readers are subsidized to take-it.

The net daily average paid circulation of
The Times is equal to twice that of any other
Los Angeles paper. Sworn statements of net
paid circulation are made monthly.

Sworn Net Average Daily Cir-culation for 12 months of

any other Los Angeles daily.

National Republican Committee's Last Words. Republican National Committee Chicago Headquarters,

CHICAGO (Ill.,) Oct. 31, 1896.
The earnest support which the loyal citizens of the United States, irrespective of former political affiliations, have rendered the Republican party and the cause of sound money in the campaign about to end, justifies an ex-

and the cause of sound money in the campaign about to end, justifies an expession from those who have been called upon to conduct it.

No campaign since the war of the rebellion has presented such great responsibilities to those entitled to the elective franchise. The dangerous principles enunciated by the Chicago platform, which proposes not only a debasement of the currency, but the destruction of the highest judicial authority of the land, have justified good citzens, irrespective of past party preferences, in uniting to rebuke those who would thus endanger the very foundation of our national organization.

Abandoning their time-honored principles of a strict construction of the Constitution, the supporters of that platform propose a system which endangers the very life of the Constitution and of the nation itself. The proper enforcement of law, recognition of the highest tribunal of the land, the maintenance of a high and unvarying standard of our medium of exchange, the payment of obligations, public and private, in a currency equal to that contemplated when they were made, are all repudiated and denounced, both by that platform and the candidate placed upon it. Their appeals to prejudice, to selfishness and to passion, the efforts to array the employé against his employer, and the laborer against that which furnishes him the desired labor, have led good citizens, without respect to party lines, and thoughtful workwhich furnishes him the desired labor, have led good citizens, without respect to party lines, and thoughtful workingmen, irrespective of the class of their employment, to array themselves against the methods which would endanger government and property rights, and the employment which they guarantee.

against the methods which would endanger government and property rights, and the employment which they guarantee.

It is gratifying to know that the two classes of citizens to whom these appeals have been most strongly directed, the farmers and the workingmen of the cities and towns, have resented the imputations which have been placed upon them by the assumption that they desire to deal falsely with those with whom they have business relations or with the people of the nation. The proposition that the farmer may repudiate a portion of his obligations by the coinage of a dollar worth but half that which he agreed to pay, has been as indignantly rejected as has that which assumed that the workingman held principles which he was ashamed to avow and which are dangerous to the peace of the nation.

The developments of the closing week of the campaign leave no doubt that the judgment of an overwhelming majority of the people of the nation is against the platform and candidate of repudiation and national dishonor. It now remains for the voters to register at the polls their answer to the attempts to excite passion, prejudice and selfishness for the benefit of a few who are willing to destroy national honor and endanger national existence for their personal ambitions and individual profit. Good citizens in every section and of every party have united in publicly expressing themselves upon this subject. Their duty now is to do so in such a manner as will forever put to an end further attempts in this line. There is but one way of doing this, and that is at the polls. While each man has his especial field in the preliminary work of the campaign, the duty of election day is common to all. No man, however much he has done in influencing others, can neglect his personal duty at the polls, and no citizen, however humble or devoted to employment or business, should fail to exercise his privilege and duty on election day.

It is not merely a privilege, but a duty. And while it is the duty of every good citizen to express his

lege of participating in the actual direction of the government by voting on election day.

It is hoped, therefore, that all good citizens will join hands on Tuesday in maintaining the honor of the nation by registering their ballots in favor—of that candidate who has been honored by the support of loyal men of all parties—William McKinley. The issue is between two men and two platforms, the one representing national honor, good government, sound money and sound principles; the other standing for doctrines dangerous to the peace and prosperity of the nation, and promising only a system which must debase the currency, destroy husiness and end em-

ployment. It is, as has been recently said by Maj. McKinley himself, "a time when the voice of the partisan is hushed in the chorus of patriotism which sounds from one end of the country to the other." Let every loyal citizen take this thought to the polls with him on election day, and the country will be saved from the danger which confronts it, and saved by that same loyal devotion which obliterated party lines in defense of the nation on an occasion of equal but not greater peril.

M. A. HANNA.

ON THE EVE OF BATTLE. ood Tidings from the Mountain Senator Perkns, who has just re-urned from Humboldt county, through which he has been making a campaign tour, reports 600 votes over and above all for McKinley, possibly 800. The wool-growers in that region are awake to their interests. In 1892 the awake to their interests. In 1892 the wool crop of that county was sold for \$178.595.62. In 1893 it amounted to just \$65.310. In 1892 the average price per pound was 22½ cents. In 1893, after the free-traders had let in the wool crop of the world, the average price was 10 cents per pound. The political change during the last two months has been wonderful. Recovering from the silver craze, they have been earnestly studying the question of the hour, realizing that protection to their industries is what they most need. In the lumber regions the same conditions exist. Since the opening of the campaign Senator Perkihs has traveled through more than forty counties. He says: "If one can judge from the size and the enthusiasm of the meetings, the Republicans will carry those counties by a large majority."

Gov. Markham has been going over the mountain counties, which he trav-ersed six years ago. He also reports a marvelous change, increased en-thusiasm, and earnest effort, realizing that, in this hour of the nation's peril, patriotism should rise above

peril, patriotism should rise above party pride.

Mendocino county, the acknowledged stronghold of the Populists, in its supreme confidence, at the beginning of the campaign, boasted that the total vote would be cast for Bryan. A splendid fight has been going on there. The Republican State Committee has contested every inch of ground. Consequently the Bryan vote has greatly diminished.

Let the voters of Southern Califor-

diminished.

Let the voters of Southern California see to it, today, that the national honor and the national faith are mainhonor and the national faith are maintained. As the rich and the poor, the black and the white, marched side by side in our great Reed parade, so let them march to the polls, with redoubled enthusiasm, casting their vote

redoubled enthuslasm, easting their vote for sound money, for protection, for the safety of our industries and for Constitutional law.

Let us so work and so vote that, from our sunny southland, we can re-turn the greetings from the Pine Tree State. "An overwhelming majority!" "California is safe!" "The Union is safe!"

and as a result gives out the following figures:
Fusionists will come to Western Washington from the eastern part of the State with 3000 majority. Western Washington will give the Republicans 8000 majority making a majority of 5000 for the Republicans in the entire State. Sullivan, the Republican candidate for Governor, will run ahead of his ticket.

Secretary Maloney of the Fusion Committee claims everything by a majority of from 15,000 to 20,000. He claims to be absolutely confident of carrying the State for the national, State and county ticket. A conservative estimate and as a result gives out the following

county ticket. A conservative estimate might give the Governor and Legisla-ture to the Republicans. The electoral ticket is much in doubt.

A CINCH ON OREGON. PORTLAND (Or.,) Nov. 2.-The campaign in Oregon practically closed last Saturday night. As to the final result, both sides are equally confi-dent. The Republicans claim the State for McKinley by 4500 at the lowest. On the other hand the Demo-crats and Populists claim it for Bryan by 5000.

crats and Populists claim it for Bryan by 5000.

An important factor in the result will be the vote of the gold-standard Democrats. It is estimated their strength is about four thousand in the State. The last few days here manifested an inclination on the part of a great many of them to vote for McKinley electors under the conviction that the State will be close. Others, in order to secure a standing for future contests, will cast their vote for three McKinley electors and one for the Palmer elector.

NEW YORK, Nov. 2.—The chalrmen

NEW YORK, Nov. 2.-The cha!rme Democratic and Repub of the Democratic and Repub-lican Campaign committees of New York are sixty thousand apart in their estimates today of the result of the election tomorrow in this city. Chairman Van Cott predicts a Repub-lican plurality of 25,000. Chairman Sheehan thinks the Democratic plu-rality will be at least 35,000.

NEW JERSEY OVER 40,000. TRENTON (N. J.,) Nov. 2.—The elec-tion in this State tomorrow bids fair to be unusually quiet. No State officers are to be elected, the ticket outside of the national candidates including State Senators in eight districts, and a full house of the Assembly.

house of the Assembly.

Chairman Murphy of the Republican State Committee is confident of a majority of 40,000 to 50,000 for McKinley, while Chairman Price of the Democrats is equally positive Bryan will carry the State by 10,000. The Democrats will make special efforts in the Fourth Congress District.

KANSAS BY 10,000.

TOPEKA (Kan.) Nov. 2.—With the closing night of the campaign in Kansas the situation is still unchanged. Both sides claim the State by large majorities. Final rallies were held throughout the State today by both parties. In this city rival demonstrations were held, the Republicans easily making the best showing. At a Republican love feast here tonight, two-mointe talks were given by a hundred speakers who have spent the last two months on the stump over the State, and their opinion is that the Republicans will elect their national, State and Congressional candidates.

The Republicans, at great expense, have made several careful polls of the State, and the last shows a majority of 10,000 for the McKinley electors. The Populists have not had the funds to make a thorough poll, but from their returns they estimate at least 20,000 majority for the Bryan electors. sas the situation is still unchanged

EXTREME MEASURES.

At fusion headquarters a message was received tonight from Chairman Jones detailing the alleged plan of the Republicans in Illinois to place official Republicans in Illinois to place official ballots in the hands of their agents.. Chairman Jones warned his Kansas allies to be on their guard, and tonight Democratic Chairman Breidenthal spread the warning to county committeemen throughout the State. His message adds: "You are justified in resorting to extreme measures to preserve the purity of the ballot and the liberties of the American people."

National Committeeman Wilson of the Republican Committee says McKinley may have 3000 plurality. State Chairman Browne believes there will be a majority of at least 1500. Both admit the election of Governor, Congressmen and Legislature is in doubt.

Stansbury J. Willey, State chairman of the Union Republican (Addicks) Committee declares that McKinley will carry the State by 25,000 and that the Union State ticket will probably be elected. Mr. Addicks predicts the success of the entire Republican Union ticket.

Democratic State Chairman Biggs as-Democratic State Chairman Biggs asserts the Democrats will elect a Goyernor, Congressmen and Legislature, and that the electoral ticket is in doubt, while County Chairman Cochran says the Democratic State ticket will be successful and Bryan will pull through by a small plurality. Cochran concedes the gold Democrats 600 votes in the State. Christopher L. Ward, secretary of the Democratic Honest Money League, says there are 2500 Democrats in the State who will not support Bryan.

Some of the leaders in both the Democratic and Republican parties predict trouble at the polls tomorrow.

He added that the facts did not differ from the ordinary charges of larceny, except for the position of the parties.

PHILADELPHIA, Nov. 2.—Pennsylvania tomorrow will elect thirty-two Presidential electors, two Congressmen-at-large and Congressmen in the twenty-eight districts of the State; twenty-five out of fifty State Senators and a General Assembly of 294 members. None of the Republican estimates give McKinley less than 250,000 plurality in the State, while many think he will have more than 300,000. All Democrats concede a big plurality or McKinley, but give no figures. Of the thirty Congressmen to be chosen, it is believed five and possibly six will be Democrats. The incoming Legislature, which will elect a successor to United States Senator J. Donald Cameron, will be about 90 per cent. Republican. THEY CONCUR WITH KURTZ. more interest taken here in the result
of the border States than in Ohio. The
Republicans generally concur in the
official statement of Chairman Kurtz
that Ohio will give McKinley a larger
plurality than it has ever given any
candidate for President or Governor,
with the single exception of Brough's
majority in 1863 of 101,000.

Democrats.

The silver Democrats are hopeful tonight and claim their polls give Bryan the State by at least 5000; though admitting that the Populist vote will be cast largely for Watson. There is a considerable "middle-of-the-road" element in the Nebraska Populist party. Republican leaders who were claiming the State by a small majority two weeks ago, are now confident that McKinley's plurality will run upward of 10,000, and some even place it as high as 20,000.

The most accurate poll that has ever been made in Nebraska shows a Republican majority of 8491, exclusive of doubtful voters. Every indication points to the fact that the doubtful vote has been won to the McKinley column. The impression of Republican success that has become general among the gold-standard men during the last two weeks has had no small effect on the hesitating voters, and the reports of the workers in the various precincts are in the highest degree encouraging to them. they claim.

On the State ticket there is more confusion. Gov. Holcomb, fusion candidate, will receive many votes of men who will also vote for McKinley electors. Democrats admit Holcomb's claims to carry Nebraska are much better than Bryan's. Republicans claim a big vote for their gubernatorial candidate, Jack MaoCall.

DEMOCRATIC POPPYCOCK.

DETROIT (Mich.,) Nov. 2.—Daniel J Campau, chairman of the Democratic National Campaign Committee, today received word from Senator Jones, alleging that an agent of the gold-standard interest had been detected in Lawrenceville, III., with a valies full of official ballots which, the dispatch asserted, were to be used in debauching and intimidating voters. The scheme, according to the Democratic managers, is to mark the ballots for McKinley and buy or coerce voters into using them so Campau, chairman of the Democrati buy or coerce voters into using the far as possible, the ballots hande

"Our friends in Illinois have discovered a plot on the part of the Republican managers to steal the election. They have captured a valise full of official ballots and have caused several arrests to be made, and will vigorously prosecute everybody connected with the fraud. Notify every township committeeman in your county, and urge the most extraordinary vigilance on the part of our people to prevent the perpetration of such rascality.

(Signed) "DANIEL J. CAMPAU." Aside from this incident there is nothing new on the eve of election. The State Republican leaders appear more calmly confident of success than they were a fortnight ago, and the Democratic managers have abated nothing in their enthusiastic claims that the fusion ticket cannot do otherwise than sweep the State.

THE SITUATION IN ILLINOIS. CHICAGO, Nov. 2.—On the eve of the election the lines of the two great parties are in practically about the same position as when the situation was out lined forty-eight hours earlier. Colorado. (BY ASSOCIATED PRESS WIRE.) DENVER Nov. 2:-The campaign in Colorado closed with two rival mass-meetings in this city, one in the inter-ests of the Democratic-Silver Republican State ticket, and the other for that of the Populist Silver party combination. There is a very strong free-silver sentiment in Utah, Montana, Idaho and Wyoming, and with the exception of the latter State, the Bryan electors will undoubtedly receive safe majorities in all the States named.

In Wyoming the Republicans claim the State by 1500, while the Democrats expect to carry it by 3500 majority.

In Idaho the Republicans claim they will elect the Congressman, but conceded the election of the Bryan ticket by about 12,000 majority.

In Montana, the fusion, or Bryan ticket, will probably poll two-thirds of the vote of the State. The Republicans concede them 5000 majority, but claim that Bokin, Republican, for Governor, will be elected.

a lawyer and ertswhile a schoolmate of Emperor William of Germany, was before the Supreme Court, Brooklyn, in supplementary proceedings today, Judgments aggregating £4,225 have been obtained against Bigelow by Col. Pope, the bicycle manufacturer.

Bigelow said he was 41 years old and lived with his wife and four children at Dobb's Ferry. He denied owning any property. He said his income depended on his pen. He claimed that since his return from Africa, when he was in the employ of Harper's, he had been suffering from African fever.

The complaint claims that three years ago Bigelow bought out Pope's interest in Outing and gave notes in payment. Bigelow denies he owes Pope anything, but claims that Pope is in his debt. A receiver for Bigelow will be appointed. Bigelow is a son of John Bigelow, who has been Secretary of State of New York, Minister to France, and is one of the trustees of the Tilden, estate. Poulteney Bigelow and family were booked to sail for Bremen tomorrow.

ASHLAND (Pa..) Nov. 2.—Two persons were instantly killed and four others badly injured this afternoon by an explosion in Packer No. 2 colliery. The killed are John Holloran and Joseph Fann. The injured are Thomas Walsn, probably fatally; John McGraw, Nicholas Mack, John Korler.

The men were engaged in driving a tunnel and had bored a hole in the rock which they had charegd with powder. The fuse was attached and lighted by Walsh, while the others ran to a place of safety. After lighting the fuse Walsh started after his compades, but his clothing caught on a spike and held him fast. He cried for assistance and the men promptly responded. They had scarcely reached the spot before the explosion occurred.

YOUNG JUDSON GREEN WAS A PHENOMENAL LIAR.

from the Bryson Block—An Investigation of His Story by Detective Goodman Lands Him in

The sequel to that most extraordinary tale of kidnaping which young Judson Green related to the police last Saturday developed yesterday, when he was taken into custody by Detective Goodman.

Although only 13 years of age, Judson is not by any more a glovely when

is not by any means a slouch when it comes to petty thievery. At least that is the conclusion to be reached after a partial investigation of his al-

leged peculations by the detectives.

While there were many features to Judson's remarkable story which corroborated it. Detective Goodman de-

roborated it. Detective Goodman decided to thoroughly satisfy himself either to its truth or falsity. Sunday affernoon he engaged a horse and buggy and started out to investigate. He was not altogether satisfied with his trip, and decided to have another talk with the boy.

Yesterday morning he looked through the reports of stolen property and came across one of a silver watch. The description tallied with that of the watch young Green had brough home with him, after his alleged experience with the kidnapers, and explained that they had given it to him to keep still about the affair.

That was the first link in the chain,

had given it to him to keep still about the affair.

That was the first link in the chain, and the detective sallied out to find the others. He started to the office of Attorney Miller in the Bryson Block, where young Green was employed. Miller's office is on the third floor. On the way Goodman stopped at Attorney Harris's office on the second floor, that gentleman having sent word to him that he wanted to see him.

To the detective Mr. Harris reported that a chatelaine watch with silver chain had been stolen from the desk of Miss Evans, a type-writer in his office, last Thursday.

Senator-elect Wellington, chairman of the State Committee, however, vigorously denies that there is any truth in it, alhough he at the same time admits that he is not going to his home in Allegheny county, tomorrow, and that he has paired with a free-sliver advocate, so that his vote will not lost. This has been the only thing to ruffle the surface of the political millipond today, although the interest and excitement is noticeably greater than in any campaign for many years.

Crowds have occupied every available space on the streets all day long, and tonight there are numbers of ward meetings all over the city. The chairmen of both State committees adhere to their previous estimates, and there is nothing on the surface to show which of them is right.

FIRED ON THE FLAC letic Park and said he had found Misse Evans's chatelaine watch in a clump of bushes. The possession of the stolen battery he explained by saying he had found it in Mott alley. A CUTTING AFFRAY.

Hughy Cunningham Badly Stabbed by a Tough. A stabbing affray in which one man was seriously cut and two others slightly injured occurred at a little after 2 o'clock this morning at the cor-

arter 2 o clock this morning at the cor-ner of First and Los Angeles streets. A party of men from Ramish & Marsh's grading camp were standing on the corner when two men came along. One of the newcomers, without the slightest provocation stepped up to Hughy Cunningham, who was one of the party, and struck him twice pocket-knife.

Cunningham grappled with his assallant and both men were covered with blood which gushed from two jagged wounds in Cunningham's left temple. At this juncture Officer Hubbard, who was near by appeared on the scene and was reirforced a little later by Officers Matuszkiewiz and Henderson. The man with the knife was pulled son. The man with the kille was pulsed from Cunningham and placed under arrest. The wounded man's friends to the number of half a dozen were crowding around the officers, and one of them received a blow on the head from the club of one of

cers, which cut his scalp.

Dr. Bryant made an examination of Cunningham's wounds. It was found that he had received two severe cuts, one about four inches long and the other two and one-half inches long, just above the left ear.

The firal rally of the campaign.

The firal rally of the campaign so far as San Fernando people are concerned was held in San Fernando last night, and the meeting was a highly enthusiastic one. There were over three hundred people in the hall and a chorus of about twenty young women dressed in the Stars and Stripes rendered campaign songs. Dr. McIntosh of this city delivered a rousing speech, which seemed to echo the sentiments of the audience.

A handful of silverites held a meeting in an adjacent barn while the Republicans were in session.

Once in a while a man can be found whose good judgment and deeplyrooted notions of common honesty rise above the sordid level of self-interest. Montana has already furnished such a man in the person of Henry Kippenberg, president of Hecla Consolidated Mining Company of that State. During his incumbency of that position his company has thrown \$10,000,000 upon the market but nevertheless he

The very fact that it is sought to double the value of a silver dollar legislation is a confession that the gold dollar is worth 100 cents.

Montana is certain to go for Bryan and free coinage, notwithstanding all this. The proposition originated there to turn the party of Thomas Jefferson Andrew Jackson, Silas Wright and Samuel J. Tilden over to the Altgelds, Coxeys, Tillmans and other human riff-raff that bossed the Chicago rodeo of July last. TO THE NATIVE SONS.

The Times has a few words to say to you. Your parents have, for the most part, passed on, but you are left to perpetuate the glorious history for which they furnished the material. It is fondly to be hoped and as fervently prayed you will remember that you fathers were men of the highest order of intellgence and courage, men who regarded dishonesty as the prima factor evidence of cowardice.

At the general election of 1861 a proposition was submitted to the qualified voters of this State, in accordance with an act passed by the Legislature of 1860, by which they were to vote tor or against the payment of a State debt that had been accumulating ever since the admission of the State. It was not a party issue, for men of both sides were to be found for and against it The founder of the first Republican newspaper in the State favored repudiation, because he believed that much of the debt was contracted through the dishonesty of State officials in early days. On the other hand, Charles T. Botts, a Virginian by birth and an avowed secessionist, implored all good citizens to pay the debt, as its repudiaion would keep out millions of foreign capital needed for the development of our young State's resources.

erick P. Tracy, George B. Tingley and R. F. Perkins of San Francisco, A. M Crane and Caleb Burbank of Alameda W. H. Weeks and J. W. Wihans of Sacramento, George W. Tyler and J. M. Buffington of San Joaquin; and a dozen others whose names we have forgotten. On the Democratic side were John B. Weller and John Bigler, ex-Governors of the State; James W. Coffroth, an orator second to none; Humphrey Griffith. Senator from Yolo and a dozen others of equal prominence. The balots were inscribed "Pay the debt-yes" and "Pay the debt-no," at the foot of the ballot. The voter's duty was to scratch out "Yes" or "No," according to his inclination. The "no" was erased right and left and the "yes" stood as an evidence of the good faith of an industrious and upright people.

The question to be submitted to you today is one of like import, for it is simply a question of common honesty. The personal merits of the opposing candidates subside in the presence of ths great and important question. We have borrowed money from all the older nations of the earth for the purposes of internal improvement, because their interest rates were lower than our own. That money was borrowed in gold and they expect its repayment in the same currency. To vote for the unlimited coinage of silver, is to vote for a virtual repudiation of debts so contracted. The Times cannot believe that the sons of the men of '61 would be guilty of any such act, so replete with bad faith and dishonesty. Vote for sound money and show the nation that the blood of the pioneers is not yet run out.

Republican voters should remember that it is necessary to place a cross opposite each of the nine candidates for Presidential electors. A cross opposite the elector heading the list would count as a vote for only that one elector. Vote the whole ticket, vote it straight and vote it strong.

THE LEGISLATURE-VOTE FOR THE

The voter today has something more to do than merely to vote for William McKinley and then go home. There is legislative ticket to be elected in the interest of that earnest old Californian, George C. Perkins of Alameda, who has years and has never lost a chance to do Southern California a good turn when the opportunity has offered itself.

To see such a man, who came here friendless boy and who has grown up with the State, a sagacious leader in her councils and an excellent magisterial officer when in the gubernatorial chair, beaten for a reëlection to the Senate by an untried man of good average ability in his own party would be bad enough. But to see such a man beaten by a political adventurer like Thomas V. Cator would be a political calamity which the good sense and mature judgment of our voters should forefend. Following are the names of the Republican nominees:

For State Senator, Thirty-seventh District, Robert N. Bulla; for Assem bly, Seventieth District, Walter S. Melick; Seventy-first District, J. O. Vosburg; Seventy-second District, Brews-ter C. Kenyon; Seventy-third District, George F. McCulloch: Seventy-fourth District, L. H. Valentine; Seventy-fifth District, John Cross.

Remember that a vote for any legislative candidates other than the gentle-men whose names are above given is a vote to send Thomas V. Cator to the and a heart for nobody. Between him and Perkins no sensible man should hesitate a moment. Be sure and vote for the right men.

Citizen! Rise to a full sense of a free American's obligations on this day of our Lord, if you never did before. Remember that the public virtue which created the American republic arose out of the private virtue in the bosoms of the men who were its foremos citizens. Remember that the Ameri can nation can only be held together by the people's observance of the prin ciples to which they gave "the last full measure of devotion," as the immortal Lincoln said in his Gettyshurs speech. Remember there can be no naional honor where there is no individual honesty. And you will walk up to the polls, put your X mark opposite the names of McKinley's electors and go home feeling all the better for having done so.

Up to 1883 we had but one railroad across the continent. Now we have six. Whose money built those roads Was it American coin? No. not one dollar in eight. It was money borrowed from the wool-weaver of Lancashire, the grazier of Ireland the iron worker of Glengarnock and the sheep herder of the Cheviot Hills It came from the laborers of the beet-sugar fields of France, from the toilers in the flax fields of Saxony and Brandenburg, and from the hardy fishermen of the North Sea. Without their money those roads could not have been built in the next forty years. We borrowed that money in gold, as honest men, and as such we should pay it back in the same currency.

The history of Democracy, as exunded by Jefferson, Jackson, Benton. Wright and Tilden showed that those wise and unselfish men contemplated no such thing as the discharge of a personal obligation in a depre clated currency. In this late day a few of the Old Guard of that party

to the Moloch of silver. They will vote Bryan should be elected, sich God for McKinley because they will not consent to any compromise that volves the abandonment of a principle. They will vote for McKinley because he represents national honor as the outgrowth of honesty and patriotism in private life. "There's life in the old land yet."

Samuel J. Randall's trip through the South, in April, 1885, was a mission that will yet bear fruit in the land of Dixie. He told them he came from Pennsylvania and that they never could have the Pennsylvania prosperity in the South without they went in for the Pennsylvania protection. You cannot awaken these ideas in a single day mong men who have been for years spellbound by the delusion of trade as preached by Randolph, Calhoun, Breckinridge and Bryan for four consecutive generations. The leaven of protection must be left to work slowly and steadily, that its good effects may become permanent.

If Bourke Cockran, Edward J. Phelps, Perry Belmont and Daniel E. Sicklesall men who have attained fame and prestige in the Democratic party-can afford to burn their bridges behind them and come out squarely for Mc-Kinley and sound money, what is to hinder the private citizen of Democrafic education from doing likewise? You may not live to see another Presidential election-try and vote right now. You may have children growing up about you, whom you would like to honorable men. Don't set them a bad example by voting for repudiation-try and vote right now.

The old soldier was in no unseemly hurry to burden the nation with the expense of pensions for himself and his mrades in arms. He was willing to wait till the national debt had become so far discharged that the government was able to pay him something for his shattered leg and his empty sleeve before he "shouldered his crutch and showed how fields were won." The old soldier is far out of the dust browned ranks of the bread-winners by this time, and when he wants his pension he wants it in money that is not susceptible of any depreciation. That is why he will vote for McKin-

With McKinley in the Presidential chair, the producers of wheat and grain in the Pacific States have some hope that the Nicaragua Canal will b built at some time during the life of the present generation. With Bryan as President, no such hope would be justifiable. He represents the narrowminded Populist element that is "dead agin" every kind of aid for public improvement and would like to see the journey across the plains performed by ox teams, as it was in 1850. McKinley and the Nicaragua Canal is the California farmer's best hope.

The producers of California do not want to be brought into competition with the pauper labor of Europe. California dried fruits cannot stand the competition of Turkey, Italy, Croatia and Illyria; her beet-sugar cannot withstand the competition of Germany and France, and her woolen mills cannot compete with those of England or Scotland. But we will have to compete with all these disadvantages if we elect Bryan. Why not vote for McKinley, the ablest advocate that protection has ever had.

A gentleman of this city yesterday received a letter from his nephew, now just 22 years old, and about to cast his first vote in New York, in which the writer says: "This is the most trying election in the history of the nation and I trust that you have already enrolled yourself on the right side. 1 know you are a life-long Democrat, but I have always regarded you as a mar with a strong sense of justice. Do cast off all party prejudice and vote for Mc-Kinley and the perpetuation of na tional honor."

An old lady said, the other day, 'Yes, we're livin' up on the old place where we lived forty years ago, and I'm trying to raise prunes enough to get back some of the money that my good old husband squandered in planting wheat. But," she added, sententiously, "it almost seems like hoping against hope, for, if Bryan is elected prunes will come in free of duty from all over the world and our crop won't pay the expense of curing and boxing. Remember that the Republin party s neither the party of the lor nor the rich. It boasts that its menership is open to all sorts and conditons of men, in the effort to give the quntry a fairer and more equitable gvernment. This is the first time in th history of our country that the pople have had a chance to elect a Presient who entered the army as a printe soldier at \$13 per month; but the is just what they propose to do. Mikinley will be the man.

Of all people who appear ridiculus while talking about "the crime of "," the Southerners are the worst. Between the close of the war and 1873 cotto fell from \$416 a bale to \$94. It ha since fallen lower, but it is hard to see what silver has to do with it, any more than it has to do with wheat or barley.

In the days of our need, at the close of that exhaustive civil war, we borrowed money of England, France and Germany. They loaned it to us in gold and we professed gratitude for their aid. Why should we now seek to repay them in a depreciated currency? It would be as dishonest as it is plainly ungrateful and contemptible.

The polls will open at sunrise this morning and will remain open until 5 o'clock p.m., at which hour they must close, according to law. The statement in one of the Los Angeles papers, to hear spoken of as useful citizens and the effect that the polls would remain open until sunset, is erroneous.

Mayor Pennoyer of Portland is the chief of the silverites in that State. but is not much known outside of it. The best known of the silverites-the founder of the party, in fact-came to his end at the end of a rope, after betraying his Master.

Illegal voters will fare badly in Los Angeles today. Ample precautions have been taken to circumvent their work, and the penitentiary is yawning to receive them.

A grand revival of American industries will begin immediately after the nation is assured of the election of William McKinley, with a Republican Congress to support him.

"Thrice is he armed who hath his quarrel just." This explains, in some neasure, the fact that the betting is three to one on McKinley.

A gang of the wigwam ready-reckon ers have been up in Santa Barbara county telling fairy stories about the size of the Silver Republican Club in Los Angeles, but the gas with which that club is swollen will be let out of it before 5 o'clock this evening and the shrunken hide of the old thing will be dangling on the Republican fence.

A new version of 16 to 1 in Orange county is that sixteen members of the Vigilance Committee in the Santa Ana Valley some years ago remember about Dr. Head, the Popocratic candidate for State Senator from the Thirty-ninth District, attempting to force the Ku-Klux-Klan onto the members of the committee, to one that does not renember it. He explained further that the committee expected to "raise" \$1500 from assessing its contingent on the several boards of election throughout the county.

The Rubio Cafion Protection District troubles have been satisfactorlly adjusted, and the work of constructing the cement ditch, bridges and other improvements will be pushed forward with vigor. ORPHEUM. There is mirth and melody galore at the Orpheum this week. Beautiful girls, agile acrobats, mellefluous singers, musicians of talent—all these and more, combine to make a vaudeville show at this house so good that it's a treat to see and a misfortune to miss it.

Romandy, that wizard of the violin, opens the ball with one of those marches of his that make the nerves it ingle, the heart beat faster, and one's pedal extremitles go pit-a-pat in rythm with the melody.

The curtain rises on those diminutive dancers, the Hengler sisters, who move through the mazes of a terpsichorean act with rare skill and grace, interspersing a dainty song with their other work.

Little Gertie Cochran has been with the town for several weeks, but the marvelous feats of memory she persons are not less interesting than were they on the first night of her appearance.

The folks, too, never seem to tire of Unthan, who is named on the bill as the "greatest living pedipulator," and whose business it is to do things with his feet just as other people do them, with their fingers and thumbs. To play a violin, cut a pack of cards, deal and shuffle the same, uncork a bottle of claret, drink to your health, shoot with rare skill—all this is easy for Unthan. But the ease with which it is done does not detract from the interest awakened by his performance.

(Oil City Derrick:) Bryan is about ready to give up the struggle in Indiana. The Democratic organization has bolted the Chicago platform and advises all its followers that they are under no obligations to support the Popocratic candidates. The Republicans have conducted an earnest and highly-successful campaign, and have no doubt as to the results. The State is ready to vote at the present moment. The money question has been talked up to the veople until it seems an utter impossibility to say anything more. The Sun says that no bets can be secured at even money on the State, and very little at 2 to I. The betting this week took the form of a \$25-to-\$100 shot that-McKinley would carry Indiana by 30,000. This found no takers, and the plurality was raised to 35,000, then to 40,000, then to 45,000, and is now at 50,000. This inspired some of the Popocrats with courage, and they took several of such wagers. At one betting stand there was \$20,000 staked, but only \$3000 of it has been called for. Republicans who lost heavily four years ago are disappointed that they have so little chance to get even.

Public Market Inspector Complains of a Growing Evil—Main-street Property-owners "Kick" on Their Paving Job.

The City Council met in regular ses-tion yesterday morning, Pessell and Snyder being the only members absent. Chief Glass was recently directed by the Council to gravel Olive street be-tween First and Court streets. He readvocate the employment of extra teams for this work." The Courcil referred the Chief's letter to the Board of Public Works.

Public Works that Frick Bros. be awarded a contract to pipe the Arroyo de Los Reyes was subjected to the same sort of parliamentary tactics as marked its entrance into the Council last Wednesday. It was First moved yesterday to lay the report on the table upon a motion of Teed's. That official when his motion was adopted moved to reconsider the vote just taken. This motion was lost, and the matter for the time being at least was thus disposed of. Public Works that Frick Bros. be

The market inspector submitted to the Council the following report, which

is self-explanatory:
"To the Honorable City Council: I "To the Honorable City Council: I would respectfully call the attention of your honorable body to the injustice being done the patrons of the public market in allowing a large per cent. of sellers to dispose of their wares on the streets of the city in direct violation of the market ordinance regulating the same. It is an injustice inasmuch as they pay their stall rent at the market, while the buyers are supplied at their doors by those that are allowed to hawk their wares about the city, thus keeping the buyers from patronizing the market. It has caused universal dissatisfaction among those that rent stalls at the among those that rent stalls at the market, and will eventually result in the abandonment of the market unless stringent measures are taken immediately to remedy the fault. They feel ately to remedy the fault. They feel they have just cause for a grievance, and that they should be protected from these outside hawkers, for they not only avoid the payment of the market fee, but they keep away buyers that would otherwise be compelled to patronize the market to purchase their wares. It has been suggested by many wares. It has been suggested by many of our market patrons that if the ordinance now in force does not prohibit the selling of all kinds of produce on the streets of our city before the hour of 9 a.m. that it be so amended, exof 9 a.m. that it be so amended, except they hold a market receipt for the month or day on which they offer this produce for sale, thus enabling those that do not entirely dispose of their loads at the market to sell on the streets after leaving. It will also prevent selling on the street to avoid the market fee. A very large per cent. of the hawkers are non-producers, and the privilege they have of selling on the streets causes a feeling antagonistic to streets causes a feeling antagonistic to the public market. It is imperative the public market. It is imperative that action on this matter be taken immediately, for the rental for the current month and the future success of the market largely depend on the re-

The Council adopted a report of the Finance Committee which recommended that the extra force of men used in keeping the streets clean be retained for sixty days.

Teed introduced a motion directing the City Engineer to at once investigate the paving of Main street as to the quality of materials being used in the work. The motion was adopted.

The proceedings to improve Wall street between Eighth and Ninth streets were ordered abandoned, as the property owners have been given the right to grade by private contract.

An extension of fifteen days' time was granted the contractor who is improving Court street between Grand and Flower streets.

Health Officer Steddom recommended to the Council that a sewer be constructed on First street between Olive Structed on First street between Olive

age disposed of. The report continues as follows:

"Some months since the Council made a contract for the construction of a pipe line to convey sewage to the South Side Irrigation Company and provided that said South Side Irrigation, Company should pay for the construction of said sewer and should take such sewage flowing in the outfall sewer as was not needed upon other lands at the rates prescribed for the sale of the same in payment for such

sewer as was not needed upon other lands at the rates prescribed for the sale of the same in payment for such pipe line.

"The Council also ordered a connection made at the intersection of Winston and Los Angeles streets with such pipe line, the said connection to be paid for by the South Side Irrigation Company, they to receive their pay in the same manner as for the construction of the main pipe line; and also provided that the inspector's fees upon this pipe line should be paid by the South Side Irrigation Company, and they to be repaid as in the case of the main pipe line.

"These amounts would be proper charges against the cash fund had the city paid directly for the construction of the work and for the inspectors as is usual. The demand of \$240 is for the construction of the connection at Winston and Los Angeles streets, and shows upon—its face that the South Side Irrigation Company has been paid in full for the construction of such manhole. The demand for \$180 is for inspector's fees on the pipe line, and shows upon its face the payment in full to said company, both of the amounts having been repaid in sewage water at the rates prescribed by the City Council.

"Your committee believes and therefore recommends that these demands be allowed in order. First, that the records may show the total amount of sales of sewer water; second, the face of the demands show and therefor the records will show if said demands are allowed that the South Side Irrigation Company has been paid in full for the connection at Winston and Los Angeles streets, and for the Inspector's fees. At the same time it lies within the power of the City Council to retain this money to the cash fund by the ordinary method of transfer at any time they may see fit in the usual manner of making transfers, and thus the cash fund is not deprived of any of the, funds, belonging, to, it; and at the same time, the outfall sewer could the cash fund is not deprived of any of the funds belonging to it; and at the same time, the outfall sewer could receive credit for the same of sewer water, and the proper records are on file to show the payment of the obliga-tions due the South Side Irrigation

THE SMITH DIVORCE.

THE HUSBAND CLAIMS TO BE A MUCH-ABUSED MAN.

Gave Mrs. Smith All the Money He Could Raise and His Note for Five Thousand Dollars-Review of the Courts.

The suit of A. E. Smith, a plumber of this city, against M. S. Smith, his wife, for divorce, upon the grounds of adultery, was heard upon a motion for alimony in Judge Van Dyke's court

upon the representation of defendant's counsel, to the effect that the charge was a serious one, and that Mrs. Smith was without means to employ counsel, the court ordered a payment of \$20, and set the case for trial on Novem-

ver 14.

The plaintiff testified that his wife abandoned him last January without cause, and that upon her urgent de-mand for money, he had written to his father in the East for a loan, and in reply was informed that if he would in reply was informed that if he would return home he would send him money; that after the separation his wife came to him and threatened to commit suicide unless he gave her some money, and that in order to satisfy her as far as possible, after telling her, he had no money, he wrote a telegram to his father, asking for money to return home, his wife paying 75 cents for the transmission of the message; that in answer to the telegram his father telegraphed \$300, every cent of which he paid to his wife.

This is not the first time the parties have been in court. Several months ago, just after leaving her husband,

December, and that he also gave ber a lot in Chicago, that he had purchased on the installment plan, and paid for out of his earnings, which at mest was but \$20 per month above his expenses; that the property in question was not of great value, but it was all he had.

He made the further statement that at the time of the separation he gave her all of the household furniture and a check for \$11.90 on one of the banks in this city; this little deposit was all the money he had, excepting 75 cents, and that he took her to a hotel for supper and paid out the last penny of this amount.

All parties were anxious for a speedy

during Sunday night or early Monday Deputy Sheriff White went out to Compton yesterday morning, and made an investigation into the work of the thieves and carefully surveyed

premises.

The thieves carried away four dozen the thieves carried away four dozen pocket The thieves carried away four dozen pairs of spectatcles, two dozen pocket-knives, three black sateen shirts, one 38-caliber Harrington & Richardson revolver (nickel-plated,) several suits of men's clothes, a few pairs of shoes, and a number of hats of various sizes and colors.

and a number of hats of various sizes and colors.

Deputy Sheriff White made a thorough earch of the premises and discovered some dirty, worn-out underwear in a car near the scene of the robbery. It is believed the burglars were hobos, and that there was a trio of them.

An entrance was effected through the back door of the store building. As the door is fastened with a bolt on the inside, it is believed that it was carelessly left unbolted, as no injury was done to either the door or fastening.

Mrs. Harvey's Suit for Damages to Hotel Greenleaf Obstructed.

Judga Van Dyke has sustained Atty.-Gen. Fitzgerald's demurrer to the complaint in the suit of Lucy Jane Harvey of Whittier aganst "the Board of Trustees of the Whittier Reform School for Juvenile Offenders of Whit-tier, Los Angeles county, Cal.," upon the ground that the complaint does not facts sufficient to constitute a

cause of action.

Lucy Jane Harvey instituted this Lucy Jane Harvey instituted this proceeding to recover damages alleged to have been done to the Hotel Greenleaf while it was leased by the directors of the Whittier institution and occupied by the naughty girls of California for a period of several months, beginning May 1, 1892. The following damages were set out in the complaint: Injury to plaster and defacing of walls, \$435; damage to plumbing, \$94.10; wreckage of the electrical work, \$59.55; destruction to windows, dcors, casing, stairs etc., \$196.35; loss of rental while building was undergoing repairs, \$100; damage to shrubbery and trees, \$250, making a total claim of \$1135; with interest from November 1, 1894.

The real grounds upon which the demurrer of the State was sustained is that there is no such institution as that sued under in this proceeding.

The mortgaged property is described as lots 1,2,3,4 and part of lot 5, block B, in Ambrose, Brown, Haley and Messenger's subdivision of the Loop and Meserve tract, city of Pomona. Ethan A. Hibbard was given judgment for \$7437.03 on his cross-complaint, with attorneys' fees in the sum of \$150.

"FIRE BOTH BARRELS!"

THAT IS THE PATRIOTIC INJUNCTION OF DON M. DICKINSON OF MICHIGAN.

The following pointed, pertinent and powerful letter speaks for itself. The original is in the hands of The Times:

Law Offices of Dickinson, Thurber & Stevenson,

Dr. G. R. Thomas, Pasadena, Cal.—My Dear Sir: Your letter of the 22d

I have ocular proof that the press of San Francisco and the good Democrats of San Francisco know where I stand, and know, as the country knows, that I am NOT, as you suggest may be possible, "mon-committal on the present issues." Emphat-As early as August, when the Indianapolis convention was mooted, and it was proposed to send me at the head of a Michigan delegation to Indianapolis, in declining, I publicly stated that in the State of Michigan the duty of Democrats was to "fire BOTH barrels at the unmistakable enemies of the republie." party at heart, I am in favor of the overwhelming defeat of Bryanism as the only salvation of our great party.

After election I shall be against McKinley on the old party lines. Until then I stand shoulder to shoulder with all my countrymen who are resisting the assault upon the Supreme Court of the United States, the executive power to enforce federal laws everywhere, and Constitutional government.

I repudiate repudiation also, and am for the national honor, and for the preservation of the fame of the American people for integrity

and common honesty.

So that you may be very sure that I am not "non-committal." I beg
to inclose herewith a sheet from the Chicago Times-Herald.

Yours very Truly, DON M. DICKINSON.
Below are extracts from a letter of Walter Wellman in the Chicago
Times-Herald, referred to by Mr. Dickinson in his letter:

"The plain, blunt truth is that but | crat's eyes. What Mr. Dickinson has for the patriotism, the energy and the done in the way of helping organize and equip the national or Palmer and man a Democrat—Michigan would now Buckner Democracy in Illinois, Indiana, have to be given over to Bryan. Don M. Dickinson is the man. For years, as everybody knows, he has been the Democratic leader in this State. In more than one battle for supremacy he has vanquished Danlel J. Campau and other would-be rivals. The Dickinson or old-line Democratic elements carried their State convention and a majority of the districts last summer only to be defrauded of their right of representation by the silver-crazy Coliseum convention. Mr. Dickinson and his associates returned from Chicago not to support Bryan, but to fight him. Their organization, the actual Democratic organization of the State, remains practically intact. Every man is against Bryan. Name any Michigan Democrat prominent in the councils and activities of the party in recent years and you name a man who is opposed to the platform and nominee of the Chicago convention. They are not only opposed to Bryan, but they are fighting counted. him. They are not only against Bryan, but they are for McKinley, and the most of them boldly announce their

attitude. "Mr. Dickinson is as much the leader of Michigan Democracy as he ever was. He is in the saddle—not for office, not for honors, but for a principle. He declined to go to the Indianapolis con-vention because he did not wish to be bound to support the nominees of that honor and the perpetuity of the repub-lic Democrats should fire both barrels of their guns—a phrase which has spread through the country and cleared the mist from many a hesitating Demo

for foreclosure of mortgage upon lot 30 of block 30, in the Los Angeles Improvement Company's subdivision in lot 3 of block 39, Hancock's survey. The note and mortgage in question was given to Meredith P. Snyder by George W. and Julia E. Strine, and was assigned by him to Penny. The latter assigned the paper to this plaintiff.

HUBER THREAT. H. M. Huber was arraigned before Justice Young yesterday morning upon complaint of his wife, Alice Huber, charging him with threatening to shoot her with a revolver. The defendant was held for examination on November 14, with bonds fixed in the sum of \$200. A divorce proceeding is pending between the parties. Mrs. Huber lives in East Los Angeles and her husband is staying at the American House on Second street. One day last week he visited his wife for the purpose of seeing their child. It was during this visit that the trouble to ccurred.

INSOLVENT ORDERS. D. S. Menzies was finally discharged from insolvent in the same department.

(Philadelphia Press:) Since Bryan was nominated sixty-one American clitant the Bond-Buyer, have endeavored to sell their bonds to the amount of the sum would have been paid out directly to labor. Not one penny of it is available, because men with capital will not risk it under current conditions. No prudent man is willing to loan dollars on a gold basis when Bryan and his backers are urging that such a loan be paid back on a silver basis in dollars worth half as much.

(Toledo Bade:) The St. Fail Globe is a Democratic newspaper. It has completed a poll of the State of Min-nesota, and claims that McKinley will receive 164,000 votes, and Bryan 146,000 votes, making McKinley's plurality 18,-

(Louisville Commercial:) When Congress declares that 50 cents makes a dollar, it might also declare that Salt River makes an ocean, and make an appropriation for the establishment of a home for political idiots somewhere on its banks.

Republicans have been confident Republicans have been confident throughout the campaign of carrying Minnesota, and this poil, taken by a Democratic newspaper, shows it to be reliably Republican. The stampede which has now set in for McKinley, means that Minnesota can be counted on for 25,000 Republican plurality. (St. Louis Globe-Democrat:) Gen. Grosvenor's revised estimate gives McKinley 292 absolutely sure electoral votes, or sixty-eight more than enough to elect, with a good prospect of securing fifty-one more; and Gen. Grosvenor has a reputation as a political forecaster that justifies betting on his figures.

Kentucky and other States the managers of that movement know if they care to tell. What Mr. Dickinson has done in Michigan, however, is the thing we are concerned with. He has from the first taken the position that cheap money and repudiation are not the greatest of the dangers threatened by the Chicago convention. He has everywhere preached the doctrine that the attempt to forbid the President of the United States to enforce the laws which he is sworn to enforce is as much nullification as the design of the South Carolinians more than half a century ago which provoked Andrew Jackson into sending a fleet to Charleston and into threatening to hang Cal-houn 'as high as Haman.' Mr. Dickinson took his stand on this kind of Jacksonian Democracy and called upon every Democrat in Michigan who be-lieves with him to stand up and be "What is the result? Why, there are

35,000 Democrats in this State have authorized the enrollment of their names as anti-Bryan Democrats who intend to fire both barrels. More are coming in every day. By a week from next Tuesday it is confidently expected there will be 40,000 men in this Michi-gan army of Democratic patriots. Nor does this represent the full force of the movement. Mr. Dickinson who is noth-ing if not practical in politics, who habitually leaves nothing to chance but seeks always certainty through organization, solemnly avows that more than 50 per cent. of the old-line Demo-erats of Michigan will refuse to vote

candidate save Bryan with a chance of election.

(Philadelphi Record:) For the absolute confidence in the election of McKinley expressed by the Republican leaders in the last few days there is a solid basis. In making a thorough canvass of those agricultural States in the West which were most affected by the silver epidemic the reports of a wholesale reaction have been confirmed. The campaign of education has borne ripe fruit; and there has been no more efficient teacher than Mr. Bryan himself, whose large drafts upon credulity instead of attracting support, have shocked the conservatism and intelligence of the people.

ing that such a loan be paid back on a silver basis in dollars worth half as much.

(New York World:) What the farmer needs is not a cheaper dollar, but that larger market which an increase in population can give him. So long as there is wheat enough in the world to supply all the people with all they want of it at 50 or 60 or 70 cents a bushel, its price will not go to a dollar. To change the meaning of the word dollar so that it will signify 50 or 60 or 70 cents will not increase values to the farmer except in so far as it will enable him to cheat his creditor. But it will make a disastrous difference to the workingman. His wages, as measured by that term, would not advance under the change at all in proportion to the unreal advance in prices.

(New York Times.) There is much evidence that the attitude of many thousands of western men toward the dominant question of ithis campaign has been changed in the last six weeks. What has been the cause of this change? The enlightenment of voters as to the real meaning of the silver movement, the inevitable effect of the adoption of the candidate who represents that policy, the mental and moral caliber of Bryan and his lieutenants, the operations of natural laws in bringing about results which had been ascribed to the influence of currency legislation, and the actual relation existing between the people and the banks and other financial depositories or distributing agencies. It has been a great campaign of education, and prominent among the educators have been Mr. Bryan, Gov. Altgeld and other silverite speakers and the silver press. speakers and the silver press.

When we were young we all were taught. That thrift was to be lauded; That he who worked with brain or hand, Laying his savings by, and planned To buy a bond or own some land, Was much to be applauded.

But that is past, it seems—and now A prophet from Nebraska Demounces all who save or plan As traitors to the Cause of Man, And lays them under solemn ban From Texas to Alaska.

The unsuccessful men, he says, Should rule and run the nation; Thrift is a crime; set labor free From such a clog on industry; Debt is the true nobility—
The only true salvation. Well, Mr. Bryan ought to know!

he is getting old. A man doesn't like to get old at all. But worse than getting old, is the appearance of age. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs, wherever they may be and forces them out of the body. It good to every portion of the digestive fluids, and assists in throwing off refuse matter. It makes the appetite good and the digestion strong. It isn't a violent medicine. It isn't strong in the lood and the digestion strong. It isn't a violent medicine. It isn't strong medicine. It isn't strong in the lood and the digestion strong. It isn't a violent medicine it is helping another place. It is meant to help the whole body and it does help it. Whenever a man feels himself failing in health, when he feels that he is getting old too fast, that his vitality is low, and that he is losing flesh, he should waste no time in getting the "Golden Medical Discovery." a total failure this season, according to present prospects.

The much-advertised performance of the Democratic Governor of the State, upon which such great expectations had been built, was a sore disappointment to his admirers, and the supposed answer to Tom Reed, which was to come off, according to the bill boards, was not what the public had a right to expect from the representations of the advance agents. The wigwam was crowded, the benches were full of men, crowded, the benches were full of men, women and children, who had been led by curlosity to see and hear "plain" Jim Budd, but there was a chill in the air, a lack of enthusiasm in the audience and cold drops of perspiration on the Governor's brow as he struggled to recover and maintain the fleeting atten-tion of the crowd.

There was nothing new in the speech,

either in the line of humor or abuse. A little side talk to a vociferous shouter outside the hall pleased the individual who had brought himself into promi-nence and encouraged him to renewed attempts at humor. Reminiscences of his own honesty while in Congress afforded the speaker much apparent self-gratification, and an opportunity to hag some cheap applause. Even execration, in the best Popocratic manner, of the "money power of Wall street,"
"the world-wide bond trusts" and "the
fatted foreign syndicates," failed to charm. The crowd was out for a lark, and once started, indulged in crows and disorderly cries, and all the while a hum of conversation interrupted and annoyed the speaker.

The meeting was called to order by W. R. Burke, the chairman of the evening. After a song by the Aeollan Glee Club, Gov. Budd was introduced.

He said:

"Looking over the Republican platform, as adopted at St. Louis, I have deemed it my duty to maintain the credit of the whole State of California, and for that I am called an anarchist. If I am an anarchist, every man, woman and child in California is an anarchist." And more in the same worked-out vein.

Then followed a reference to bond issues and a medley of quick changes from encient history to pure fiction, from lightning calculations running up to ten and twelve figures, to confident

from lightning calculations running up to ten and twelve figures, it confident prophecies of future political events, interspersed with State Popocratic gags and democrapulistic catch-phrases. Pausing to take a glass of water, the speaker said significantly: "When I go out of office, I'll be plain Jim Budd, to do as I please. But now I'm the servant of the people, and out of respect to the people I drink water." With that he struck his breast and threw back his head, while the crowd tel loose a yell of amused delight at the pompous vain-glory of the man who had traveled 500 miles to answer big Tom Reed of Maine.

The San Francisco speech on alleged coercion of voters was warmed over and the Governor boasted that "when you shoot into a flock of birds and see one flutter, you can bet you have hit some of 'em."

Then the "crime of '73" and "the demonetization of silver" came in for an inning. Gov. Budd announced that the panic of 1873 was caused by the cessation of silver coinage. By the passage of that act wages were reduced, the stock exchange went to pleces, American securities were unsalable, and the banking system of the country was wiped out. In 1893 the crime was re-

"Let us then return to the money of our fathers. If you of Southern California will roll up to Tehachepi with a majority for Bryan, we will meet you with a wave of 20,000 majority from the North."

Even the name of the Chicago candidate for President failed to arouse more than faint applause, that subsided after three or four seconds of wavering cheers. The play closed, of course, with the discovery of a conspiracy. What would a Popocratic gathering be without a timely discovery of a deep-laid Republican conspiracy?

"And now I warn you," continued the Governor, "instructions have gone forth not to add up the Democratic and Populist vote but to put down, Webster, Democrat, so many; Webster, Populican and a Democrat. The Remublican had received votes correctly spelling his name, some misspelt, and some with the wrong initials. An attempt was made to unseat him by depriving him of these last two classes of votes. get a certificate for an aggregate of 200 votes."

As Gov. Budd was billed to address two street gatherings he excused himself for retiring at the conclusion of his speech. On his withdrawal bediam broke loose, although R. M. Widney and J. V. Mitchell were to make the entertainment continuous. The secretary attempted to read some telegrams but his voice was drowned in the uproar and confusion of the crowd.

On Broadway an effort was made to organize a street demonstration to escort Gov. Budd to the train. Several hundred yelling, riotous rooters in irregular ranks marched up Broadway to Fourth street, then to Spring street. There the head of the procession followed a bass drum and Sewall north, while the tail of the crowd went south

Up on Majorities.

SAN FRANCISCO, Nov. 2.—The close of the campaign in California finds the Democrats confident of carrying the State and the Republicans are also claiming California, but not so positively as the Democrats. Frank McLaughlin, chairman of the Republican State Central Committee, claims 10,000 majority for McKinley, while Chairman Alford, for the Democrats, claims 30,000 majority for Bryan. Many Republicans concede the State to Bryan by a small majority.

licans concede the State to Bryan by a small majority.

It is believed that San Francisco will reverse the majority for the Democrats two years ago of 11,000, and give McKinley a small majority. The Republicans claim 5000 majority in this city, while the Democrats make a similar claim for Bryan. Conservative Democrats and the Silverites claim the State for Bryan by smaller majorities than the Democratic State Committee officers.

than the Democratic State Committee officers.

W. P. Lawler of the Silver State Committee says Bryan will undoubtedly carry California, but says his majority is problematical. Gavin McNab predicts that Bryan will have at least 10,000 majority in the State outside of San Francisco. The Democrats claim all Congressmen except in the Fifth, where it is admitted that Loud, the Republican, has the best chance. The Republicans claim all Congressmen except Maguire, in the Fourth. The Democratic State Central Committee is positive that De Vries will defeat Grove Johnson in the Fourth District.

A FINAL RALLY.

The "Old Boys" at Soldiers' Home

Listen to Republican Doctrine.

The campaign was closed at the Soldiers' Home yesterday in a blaze of enthusiasm. Congressman McLachlan spoke to the old soldiers on the issues of the campaign, paying particular attention to the money question. He deprecated the covert attack made on the Supreme Court in the Chicago platform, and appealed to the spirit of patriculum in a request for votes for Maj. McKinley, the veteran soldier of the grandest army in the world's history. He pointed out that at no time since the close of the war had the importance of a Republican victory been so close to the needs of the whole people. The men who fought the nation's battles from 1861 to 1885 should now stand as one man for the champion of Americanism in its truest form. No doubt now remained of a victory in the battle of the ballots, and National Precincian will not go back on its glorious record made in previous election contests. Every mention of Maj. McKinley's name was cheered to the echo, thrice times. George A. Hough closed the meeting with a foxty-minute speech in which he pointed out the value of sound money, and urged upon the veterans the necessity of their making perpetual by their votes on Tuesday the honor of the nation for which they fought in the hour of the nation for which they fought in the hour of the nation for which they fought in the hour of the nation predict that McKinney will receive 800 majority and that McLachian will run even with the head of the ticket. THE GREAT REGISTER.

It is a Blacksmith Job, but Bears the Totem and Must Be All Right. The Great Register of Los Angeles county has been issued from the press of R. W. Pridham (who is no printer,) and is a rude specimen of the printer's art. The title pages are printed partly from wood type and are blurred and smeared worse than a cheap circus poster. The work appears to have been done, according to a smeared line been done, according to a smeared line on the title page, at the "shop" of the aforesaid R. W. Pridham, although the allegibility of the imprint leaves the name somewhat in doubt. In the lower right-hand corner of the title page is a blotch which careful inspection shows to be the totem of the Typographical Union, or, in oher words, the "union label" used by a body of boycotters that buncoed the city and bullied about all the politicians into worship of said totem. Considered from a blacksmith's standpoint, the Great Register is a totem. Considered from a blacksmith's standpoint, the Great Register is a pretty fair job.

Another Herald Roorback.

The organ of the wigwarm-warmers broke out yesterday morning with a wild-eyed roorback about a turkey dinder having been spread at the County Farm for A. E. Davis, candidate for Supervisor, the county having been called upon to pay the bill for "turkey." The truth is that some turkeys have been purchased and are to be fattened for Christmas, it being the rule to give the inmates, of the farm a turkey dinner on that day, but Mr. Davis did not have anything to do with the case, and did not partake of the "funeral baked meats," if any were served at the County Farm on October 24, which is the date of the alleged raid on the county's funds.

The organ of the wigwam-warmers is getting down to pretty small things when it attempts to make capital against a candidate on so small a basis as this. Another Herald Roorback.

Abou Bill Bryan.

One of the best things that has appeared during the political campaign is the following parody on Leigh Hunt's celebrated poem, "Abou Ben Adhem," although the formation of a parody on such a work of art seems almost a sacrilege, but the New York Sun is responsible for it:

Abou Bill Bryan, may his tribe decrease!

Awoke one night from a deep dream of peace; And saw within the moonlight in his room, Making it rich and silver-like in bloom.

An angel writing in a book of gold; Exceeding gall had made Bill Bryan bold, And to the presence in the room he said:

"What writest thou?" The vision raised its head, And, with a look of what he might expect, Answered, "Their names who'll get it in the neck."

"And am I one?" asked Abou. "I don't know," Replied the angel. Abou spoke more low, But cheerily still, and said, "I pray thee, sir, Write me as one not liable to err." The angel wrote and vanished. The next night it came again with a great November light, And showed the names of those knocked galley-west;

Labor and Prices Abroad.

(Chicago Times-Herald:) In order to obtain accurate information concerning the effect of the money standard in various countries on prices of commodities and wages of labor, Secretary Oliney addressed a letter of inquiry and instructions last July to all United States diplomatic and consular officers upon this important subject. The reports have been received, and are just published by the State department in a single volume. These reports cover a period of ten years from 1886 to 1896, and show whether the money standard in the particular country is gold, silver, paper or double, the amount of money in circulation per capita, the proportion of the metals to paper and the amount of reserves; the effect of the money standard on agriculture and manufacturing, the rates of wages and other facts of a similar kind.

These reports all agree that there has been a decline in the prices of commodities the world over and an advance in wages, the latter most marked in gold-standard countries. Great Britain, France, Germany, Austria and the United States show marked declines in prices of raw materials and a general rise in wages. In Belgium there is decline in prices but no change in wages, and this is also true of Italy.

In Mexico there is no change in the prices of food products not exported and an advance in the articles imported, such as coffee and sugar. There is advance in the wages of unskilled labor, but skilled labor shows no improvement.

In Costa Rica and Colombia, which are silver countries the prices of com-

ment.

In Costa Rica and Colombia, which are silver countries, the prices of commodities have increased, and so have

modities have increased, and so have wages.

The conclusion from these statistics is very plain. So far as wages are concerned there is more stability and prosperity in the gold-standard than in silver-standard countries, and as regards the prices of commodities, particularly of agricultural products, the decline has been no greater in the former than in the latter.

With these facts before us, why should we make a change?

For to thonor and country our voters are true!

"The Chicago platform was a rebuke to that great man who never, in all his illustrious career, did an act which will be remembered so gratefully as that when he checked the violence and pulled down disorder in the city of Chicago. What had happened? A mob had taken possession of the railroads, had stopped the passage of trains, had obstructed the mails. What did that their election, to do all in their power to bring about the reforms aimed at. John F. Francis has not yet accepted the nomination for Mayor, nor is it known for a certainty whether he will do so. He still has the matter under consideration.

The league will look after the matter of candidates' petitions. They must be filed twenty days before the election. Ample time remains to secure the necessary signatures. The nominees need not worry about it, though their cooperation in getting signers will be acceptable.

stopped the passage of trains, had obstructed the mails. What did that obstructed the mails. What did that obstructed the mails. What did that outside of the limit of Illinois? They were stopped by violence. The officials of the State of Illinois were silent, were indifferent, or worse. And then Washington spoke, and from the lips of Cleveland proclaimed that wherever that flag was the proclaimed that wherever that flag was acceptable. States was supreme. Chicago de-clared in its platform that it was a crime; that if their candidate is elected such crimes shall no longer be committed. It met the approval of Aligeld; it met the approval of Tillman, but I dare say in the presence of this body of free men and free women that 10,000,000 of Americans. THEY WANT GOLD. An instance
which shows the lack of confidence felt
by silver men in their own theories is nd in the recent sale of a big mine found in the recent sale of a big mine in Colorado to English parties: The sale was recently announced of the Tomboy mine, in Colorado, to a company known as the Exploration Company of London. The owners agreed to sell for \$2,000,000, as stated by telegraph, but when it came to the payment the amount was demanded in gold. This surprised the agents of the English company, as several of the Tomboy owners are not only pronounced free-coinage-of-silver men, but contributed to the Bryan campaign fund.

Bryan campaign fund The London people offered silver, but his was not to the liking of ex-Gov. Adams of Colorado, or several of his Adams of Colorado, or several of his State partners, and so the matter stands. There seems to be no doubt that the sale will go through, but it is believed that reference will have to be made to London as to the mode of

This is not the first case of the kind that has occurred. Such instances show very plainly that these silver men are not willing to "take their own medi-

CALIFORNA PRUNES IN FRANCE, According to reports from France, the French Minister of Commerce has been asked to take the necessary steps to prevent the sale of California prunes in France as a French product. This action is based on the fact that a syndicate of French prune broducers was recently organized for the purpose of protecting the French product against such substitution. California prunes growers, who realize what are the best interests of their industry, will be in hearty sympathy with the French producers in this matter. It is not to the benefit of California producers to have our prunes, or wine, or any other product sold under foreign brands, but on their merits, as what they are. It is only in this manner that a wide reputation and a large market can be built up. CALIFORNA PRUNES IN FRANCE.

TRADE WITH CENTRAL AMERICA. The Times has frequently rederred in this column to the excellent
opportunities which exist for working
up a trade between Los Angeles and
the Central American countries. Advices from San Francisco state that themerchants of that city are about to
make an effort in this direction, and to
begin with they intend to make a display at the Guatemala International
Exposition, which opens on March 15.
A meeting of the Chamber of Commerce
was recently held in San Francisco to
devise ways and means for such an exhibit.

devise ways and means for such an exhibit.

Carlos Peretra, representing the management of the exposition, said that some 9000 square feet of space had been assigned for the general California exhibit, and 500 square feet for the machinery exhibit. The general opinion of the merchants present was that this assignment of space would be inadequate. Capt. Merry said that New York and Philadelphia are already organizing to prepare exhibits, and it seemed an anomaly that California, which is so much nearer, should neglect the opportunity.

W. H. Mills expressed the opinion that it would be possible to get an appropriation from the State Legislature for the purpose of a California exhibit. Others, however, did not think they could wait for the Legislature. Mr. Mills then said he thought the State Board of Trade would give \$500 to the fund as a starter.

The jumping of claims is due to a recent decision rendered by Secretary Hoke Smith, to the effect that oil land is not mineral land, so that such land may be taken up as homesteads. Meantime, quite a number of people have invested all the money they possessed in vested all the money they possessed in the oil section at Coalinga, and it is not to be expected that they will give up their property without a big fight. It is believed by some that the Standard Oil Company is alding those who have jumped these claims. The ruling of Secretary Smith's is likely to lead to much trouble in other quarters.

Southern California merchants should not sit idle while these preparations are being made. This section, which is within so short a distance of Central America, should take a leading part in the display of products in the coming exposition.

GENERAL BUSINESS TOPICS.

JUMPING OIL CLAIMS. There is much excitement in the oil field in the western part of Fresno county around Coalinga. A number of claims have been jumped there, and there is fear that serious trouble may ensue.

The Times has frequently referred to this promising oil section, where a grade of oil of exceptionally high gravity was discovered several years ago. Los Angeles people are largely interested in these properties, one of the first to interest himself in the first successful well that was operated up there being Judge W. F. Fitzgerald, formerly of this city, at present Attorney-General of the State.

The jumping of claims is due to a recent decision rendered by Secretary Hoke Smith, to the effect that oil land the claim of the state of the State.

(BY ASSOCIATED PRESS WIRE)

CHICAGO, Nov. 2.—Wheat proved more interesting than had been expected of it the day before election. Trading was not very heavy, but the orders to buy were in the majority and sellers could only be found when higher prices were bid. The strength came principally from this situation. Liverpool opened 4d higher for futures and reported a decrease in stocks of wheat, which was already small, of 135,000 bushels. The figures on world's shipments were conflicting, but all of them were large, and this was a disquieting influence, but only temporarily so. The quantity on ocean passage was 640,000 bushels less. The net result was a very strong market. December, which—at the close Saturday was bringing 12%,672%, opened this morning with buyers at from 73%,673%, opened this morning with buyers at from 73%,673%. A reaction to 73% followed, but from that point it turned upward again and wifit steady persistence, but without much activity in the trading, it rose to 74% before 12 o'clock, and later, after a reaction to 74%, it rose to 74%. The northwestern receipts of wheat were 1450 cars, or 100 cars less than a week ago and 300 less than a year ago, which was a partial confirmation of the predictions so freely made last week that the deliveries in that quarter were to fall off sharply. Closing cables showed an advance at Liverpool of 24cc, and the price, of December, which had in the meantime fallen (BY ASSOCIATED PRESS WIRE.) off sharply. Closing cables showed an advance at Liverpool of 2½c, and the price of December, which had in the meantime failer to 74½, advanced again to 74½. During the last fifteen minutes an extra spasm of buillishness carried the price up to 75. The closing was firm at 74½675. Corn ruled strong on very limited business. It was affected a good deal by tire decided strength in wheat. Oats were very quiet, but a firm feeling existed and prices ruled higher. In provisions there was almost nothing doing.

New York Wheat.

NEW YORK, Nov. 2.—From start to finish today the wheat market gave a surprising exhibition of strength, considering the fact tomorrow is a holiday, opening \$\(\)C higher at \$80\%, for December. It kept on rising until it reached \$1\(\)\$s, where it closed. Speculation was most active in the last hour and the total sales for the day only reached \$1.50.00 bushels. It was a case of bull sentiment, reinforced by strong foreign news and European buying, esepcially on the Pacific Coast, where further export orders were reported. Liverpool stocks showed a falling-off or the mont, The world's shipments were estimated nearly a million bushels less than last week and there was a reduction of 60,000 bushels on passage. The American visible supply increased only half as much as expected. Corn and oats were quieter than wheat, but shared its strong undertone.

"Hold Your Grain." "Hold Your Grain."

LONDON, Nov. 2.—The Mark Lane Express today counsels farmers to hold their grain, saying: "The price of English wheat may react to 28s, but it should rise again in December. The new wheat crop of Argentine is now offered for spring shipment. It is now below 30s. This gives a glimpse of the future, as Argentine wheat should always be cheaper than English. Telegrams from India Saturday Sive the rainfall in October as very small at all chief stations. The best was in Punjaub, and it was practically nil on the eastern coast. Wheat accordingly has risen to 30s a ouarter at Calcutta, and there is considerable distress among the poor."

San Francisco Wheat.

San Francisco Nov. 2.—In the wheat market May option opened at an advance of nearly 5c over Saturday's closing and the market was generally much firmer. A small downward reaction in futures afterward occurred, which was due to realization sales among speculators. At 9:15 o'clock May opened at 1.43% and rose to 1.43%. There were no sales of December. At 10:15 o'clock May opened at 1.48%, rose to 1.43% and closed at 1.48. The same as at 9:15 o'clock, no December wheat was sold. At 11:15 o'clock May opened at 1.48%, declined to 1.47%, recovered to 1.48 and closed at 1.39%, and closed at 1.40%, declined to 1.39% and closed at 1.39%. The sample market was firmer, with an advance reported in the English quotations. No. 1 shipping may now be quoted at 1.38%@1.40 per cental.

NEVER HEARD OF M'KINLEY. That Fact Explained the Seeming

Ignorance of a New Yorker (New York Press:) So many delega-tions are calling on McKinley in his Canton home these days that travelers on trains going east and west have become accustomed to the sight and pay
little attention to the sound-money enthuslasts who are usually rigged out in
fantastic tall hats and long, brightly
colored badges. The mistake of the
inebriated man in this story was, therefore parloyable

fore, pardonable.

It was on the train that the New York delegation to the annual meeting of the brewers of the United States traveled to Pittsburgh. Several of the crowd left the brewers' special parlor car and went into the smokers' coach. One guest of the brewers, wearing a longer badge than usual, and his tall hat seemingly lengthened by his short, wiry form, took a vacant seat behind the inebriated traveler, who had been distributing inane smiles impartially all over the car. He was too drunk to take a positive interest in anything until it slowly dawned on him that the man behind him was not returning his good-natured grimaces. With a tremendous effort he lurched around in his seat, gazed complacently at the tall, shining white hat, then at the depending badge that to the bilinking eyes of the sociable fellow seemed to stretch down to the floor of the car.

"Howish?" he asked with superabundant blandness.

The wirv man looked steadily out of It was on the train that the New York

The thin man didn't seem to hear the inquiry, so it was repeated in a little better English.

This time the wiry man heard him, for his brewer companions in the seats across the way were leaning forward to "see what Gust would do with the bloke."

"McKinley?" he asked. "What Mc-

DON'T FORGET.

The Wage-earners of the United States Should Remember.

Chicago Times-Herald:) That the only commodity they have to sell is their labor.

That the condition of the market for this commodity' depends not upon the amount of circulating medium in the country, but upon the number of men who are looking for a job.

That the condition of the market for this kind of commodity also depends upon the number of jobs to be sought after.

That when fifty men are waiting to fill one job the wages paid to the lucky man who gets the job must necessarily be less than they would be if only one man were waiting for it.

That it must follow then, as a matter of elementary logic, that the price paid for labor is largely controlled by the law of supply and demand.

That it is also very evident that any economic policy which multiplies the number of jobs in this country is the one which increases the demand and should have theindorsement of the wage-earners.

That the only policy which will multiply the jobs to be secured is a policy which encourages the establishment of new productive industries and which stimulates those we already have.

That this cannot be done by any scheme which proposes that the United States shall take the silver-miner's buillion and coin it for him free of charge, stamping upon each coin a value which will not represent its purchasing power.

That these jobs cannot be multiplied by a policy which, under the false and deceptive plea of "cheap goods for the consumer," proposes that the shops of Europe and oriental countries shall do our manufacturing for us.

That the promise of cheaper goods under the Wilson-Gorman tariff law, made by Mr. Bryan and others who helped to frame it and who advocated its enactment, has not been fulfilled. That the only things that have become cheaper are the products of the soil, caused by the decreased home market which always follows the closing of factories, and by the repealing of the reciprocity paragraph in the McKinley law which cut off the sale of 4,000,000 barrels of flour per year and caused foreign nations to retalitate by e

ing our meat products.

That the promise of Mr. Bryan and other defenders of the Wilson-Gorman

other defenders of the Wilson-Gorman law, that we would get cheaper clothing by putting wool on the free list has not been fulfilled.

That good clothing is no cheaper now that m 1889, although we imported 115,341,465 more pounds of wool in 1895 than we did under the McKinley law, and destroyed the business of 700,000 wool-growers in this country to try the free-wool experiment.

and destroyed the business of 700,000 wool-growers in this country to try the free-wool experiment.

That the cost of this extra importation of wool was \$16,818,883, which was sent abroad in gold, and which should have gone to American wool-growers to be paid to American wage-earners.

That under the Wilson-Gorman law in 1895 we paid to foreign labor \$116,444,511 more gold for importation of twenty-nine different varieties of manufactured goods than we did during the fiscal year 1894 under the McKinley law.

That the census returns of 1890 showed that 23,000,000 people are directly dependent upon the manufacturing establishments of the United States. That if to these are added the farmers, grocers, bakers and others whose living depends upon supplying these employés, the aggegate would represent half our total population.

That in the present contest the question at issue is: Shall capital be employed again in these productive industries as it was in 1892, under the McKinley law, or shall it be kept idle tion at issue is: Shall capital be em-ployed again in these productive in-dustries as it was in 1892, under the McKinley law, or shall it be kept idle by the menace of a debeased currency and by a tariff law framed for the bene-fit of European wage-earners?

Railway Wages, 1892-1896. Railway Wages, 1892-1896.

(Chicago Inter Ocean:) There are reasons for the unanimity of the railway men in the support of MciKnley. They receive less wages in 1896 than in 1892, and they know that the alleged depreciation of silver has nothing to do with the case; for the price of silver in 1896 is not materially different from the price in 1892. Wages are lower now than then, because the railway companies are making less money now than then, and they are making less money because less raw material is transported to American mills and factories, and fewer goods from the mills and and fewer goods from the mills and factories to points of distribution; also fewer passengers are carried, because the purchasing power of the people is less, and it is less because of the les-sened wage fund.

The loss of \$15 or \$20 per year to one man does not seem much, and yet \$15 means a suit of clothes to one switchman, or three dresses to his wife, or three suits to a five-year-old boy. It also means the payment of a life insurance policy of \$1000 on a young man's life. And it means a great deal when applied to the 750,000 men employed on all the railways.

The American Economist makes this analysis of the loss of purchasing power of railway men:

The Saving Remnant. (Chicago Chronicle, Dem.:) The hope of the conspirators and revolutionists who nominated Mr. Bryan was that they would be able to use the Demo-cratic party, nearly 6,000,000 strong, to make eeffctive in America the prin-ciples of the Populist party, perhaps

make eeffctive in America the principles of the Popullst party, perhaps 1,000,000 strong.

What are these principles? Briefly, they comprehend cheap money, the cheaper the better; loans by the government to individual citizens on poor security or no security at all; legislation in behalf of favored interests, chiefly agricultural or mine-owning; the repudiation of public and private debts; the denial of the President's power to enforce Federal laws; the destruction of the civil-service system; the support by government of rain-makers, the calamity-breeders and the irrigation boomers; hostility to courts, banks and railroads; hatred of foreign commerce and a hundred more grotesque and possibly less dangerous imaginings of the ignorant and vicious. No intelligent Democrat will find in this creed a single idea that as a Democrat he can commend. He will recognize in much of it an extreme form of republicanism and in the remainder he will perceive the familiar delusions of Populists; nearly all of them of Republican antecedents, based chiefly on a lawless desire to wreak vengeance upon the parent party for its failure to keep its promises—promises that men of common-sense and common honesty knew were made to be broken.

The candidates nominated by the Populista are as undemocratic as the principles for which they stand. Bryan has been an avowed Populist for three years. Watson is an original Populist.

other Lie Nailed-Mr. Nash's "Ex-planation" of His Course Re-garding the McKinley Letter.

PASADENA, Nov. 2.- The most important matter to come before the City Council this afternoon was the fran-chise of the Southern California road for a double track across Walnut and Locust streets. This franchise was brought before the City Council for the Locust streets. This franchise was brought before the City Ccuncil for the first time about six weeks ago, and was passed to the first reading by a vote of four of the five members of the Ccuncil, who proposed to give to the Southern California road the right to cross with a double track two streets, one of which must be crossed to reach the largest primary school in Pasadena, and also to reach the polling-places in their respective precincts with their arrangements for election of work on the polling-places in their respective prec one of which must be crossed to reach the largest primary school in Pasadena, and also to reach the library and Throop Institute from the eastern part of town. The public is familiar with the strenuous objections urged against this action, and it has been twice deferred to give the people and the railroad company a chance to come to terms. It appeared from the meeting today that the company desires to sell its old right-of-way for the sum of \$5000, but Mr. Cahill, who appeared before the board, declared that the people were not able to purchase the right-of-way, and asked the Council to fix an assessment district and to purchase, the right-of-way of the company, the railroad making a promise that, should that be done, it would not use its property in the neighborhood for switching purposes, but only to cross the street with two tracks placed close together, and eventually to carry the Mouble track to Los Angeles. The chairman of the committee of property-owners said that he had come before the Council to present the subject, and asked that body to take a week to consider it and to get together with the property-owners and come to a decision. The railroad attorneys seemed to take the ground that they and not the Council had the right to say whether or not such an extension of time should be granted, and evidently convinced the Council to that effect, for after listening to the arguments which were offered by the citizens and those offered by the

dena cars pass our corner. James cardiared it was willing to relinquish, a double drack and switches across Walnut and Lecust streets.

Mr. Reynolds vigorously opposed that clause in the franchise granting such privilege, and offered an amendment which provided that the company should hemove fits present track, but tidd not receive a second. The franchise was read by sections, and Trustee Washburn moved the adoption of each section separately. Trustee, Hamilton uniformly seconding, and Trustee Reynolds voting nay. When it came to the final passage of the ordinance as a whole, Mr. Reynolds pleaded with the Council for delay, and the citizens present reminded the members of the Council for delay, and the citizens present reminded the members of the Council that they had acted all through these proceedings as though they had been representatives of the road and not of the people. They were asked to grant a delay, if only for a day, in the final decision. Finally Mr. Patton moved that the matter be deferred until 10 o'clock Wednesday morning, at which time it was emphatically asserted that the franchise will be passed. It now requires only a vote on the "final passage," every section having been formally adopted. The citizens who witnessed the proceedings of the board were not chary of expressing their opinion upon the way in which the City Trustees, Mr. Reynolds only influenced voter today, but our people have done lots of good hard thinking during the campaign, and they are now all off the fence on the one side or the other. The indications are that they were willing to come o terms who witnessed the proceedings of the statement of the railroad attorneys that they were willing to come o terms made the criticism all the more caustic. The apology offered by the board was simply "that the matter had been pending now for a month, and it should be settled."

respondence.) At the meeting of the Board of Supervisors of this county today, Supervisor Potter was appointed a committee of one to have the ap-proaches to the Yorba bridge fixed at an expense of about \$150. The certifi-cate of the County Tax Collector and the County Auditor of expenses incurred in collecting taxes from the city of Santa Ana, amounting to \$150, was ordered filed, and the Auditor was in-structed to retain the said \$150, and to place it in the county salary fund. A JOINT ULTIMATUM.

Members of the executive committees of the Republican, Democratic and People's parties met this morning in the office of Z. B. West, chairman of the Republican County Central Committee, and selected a joint committee of six, to formulate a code of instruc-

of six, to formulate a code of instructions to be followed by the various election boards in the county.

The latter committee drew up a set of rules, which have been printed in circular form and mailed to the different election officers on the board throughout the county. These are for the purpose of securing harmony and uniformity throughout the county in making up the tally sheets and certificates thereto. As committees of the three parties, respectively, they united in a recommendation to strike from the tally list and certificate all party designations, and then strike therefrom every repetition of each person's name every repetition of each person's name every repetition of each person's name thereon, leaving the name once only on the tally list and once only on the certificate. In addition to this, any and all recommendations heretofore given by any political party of Orange county below designated were recalled.

THE CAMPAIGN LIAR. The campaign liar is abroad in Orange county, as he is in many other portions of this broad domain at the present time. The day before election is his favorite time for doing his meanest work and, from present indications, he is in the height of his glory at the present time. One of the grossest misrepresentations, if such it may be called, that he made today was that the Hon. J. W. Ballard, Republican naminee for Superior Judge, had joined the American Protective Association just two weeks ago. This statement was made an evening or two ago by an unscrupulous Democrat in Orange and today the report is being sent all over the county. It is expected, of course, that the report will injure Mr. Ballard with the Catholic vote. If the report were true, it might have some effect on the Mexican and other Catholic vote, but false as it is, it will only react upon the persons that give it tongue. Mr. Ballard stated to the Times correspondent this afternoon that the report was entirely unfounded and false.

The mere fact that all such stories are held back until the time is too short to refute them is the strongest possible evidence of their falsity and Republican voters should pay no attention to them. They should be received with contempt by honest voters.

EQUAL SUFFRAGE AT TUSTIN. county, as he is in many other portions of this broad domain at the present

Mrs. Alice McComas of Los Angeles addressed the ladies of Tustin a few evenings ago on the subject of equal suffrage. Not only ladies, but a numsuffrage. Not only ladies, but a number of men were present and the opinion of those who heard the address spoke quite highly of the manner in which the lady handled her subject. Mrs. McComas has a good command of language and a polished mode of address that always brings for her the closest attention from an audience, no matter upon what subject she is speaking. Her address was well delivered and no doubt would have had far more effect had she not so boldly claimed that men were bought for coin and that men were bought for coin and that the Legislature, both State and national, was very corrupt; that the courts and juries were bribed and that man seemed to be the embodiment of all that was corrupt and vile. The misguided lady has evidently forgotten that cultured women lobbyists have made the most effective instruments for corruption purposes that are known to either the State or national Legislature.

The Republicans of Fullerton had a rousing demonstration last Saturday night, and Monday night they wound up the campaign in a blaze of glory. Judge Ling of Los Angeles addressed the large crowd Monday evening, and he made a most excellent address. The precinct of Fullerton is safe for Mc-Kinley.

CAMPAIGN CLOSES.

Th campaign closed here this evening with rousing speeches from Hons. C. E. Day and George P. Adams of Los Angeles, in French's Operahouse. The silverites came out in the early part of the evening, attended by a large crowd of boys tooting horns and beating cans. They marched up and down the streets and then to O'Neill's Hall, where they were addressed by S. C. Wright. After the Popocratic demonstration the Republicans formed 500 strong and marched to the operanouse, headed by the Santa Ana Brass Band.

SOLDIERS' HOME.

Over One Thousand Votes Will Be

over One Thousand Votes Will Be for McKinley.

SOLDIERS' HOME, Nov. 2.—(Regular Correspondence.) Preparations for election were in active progress today. The polling places are in tents. Some of these are so close together that one can almost throw a stone from one to another, which would be remarkable even in crowded portions of a greaticity. There are five precincts in all, and for these there are a little less than 1300 voters registered. There are more than 1900 members of the home, but nearly 400 of them are away on furlough. Of those remaining probably more than 100 are members entitled to home privileges, but not naturalized. Estimating that nearly 100 of the voters registered will, by reason of absence or otherwise, not vote, there will be 1200 votes cast. Some of the free-silver men are claiming that 300 of these will be for Bryan, but little credence is placed on such a large estimate. Conservative predictions place the total vote for Mc-

Kinley at the home from 1000 to 1050 and upwards. The results of the home vote will probably hot he knewn as soon as at many other of the county precincts. At some of the poling places there will doubtless be more than 200 votes to count. It has been observed at past elections that the members who served on election boards strove more for accuracy than for speed in the count.

The last raily of the campaign is to be held this afternoon, at which time Congressman McLachian and others are to speak. The programme also includes suitable musical selections among which is a vocal quartette by Messrs. Pratt, Barr, Beach and Young-HOME BREVITIES.

another Step in the Certified Check Matter-Brevities.

SANTA MONICA, Nov. 2.—(Regular Correspondence.) At a meeting of the Board of Trustees this afternoon the warrants approved at a previous meet-ing amounting to \$1053.53 were can-celed. These warrants were in favor of T. E. Newlin, County Clerk, and R. R. Tanner, City Attorney, in settlement of the claim of Trask against the town, involving the \$1000 certified check deposited last winter by Frank Moir with his bid for sewer work and after-ward forfeited by the Trustees. After canceling the warrants above mentioned today the Trustees approved warrants for the same sum in favor of

warrants for the same sum in favor of Robert F. Jones, chairman. It is explained that this action was taken to avoid complications such as might arise from the fact that the former approval of the warrants was by a vote of only two members of the board.

More than ordinary interest attaches to the matter because of the fact that at the last meeting of the Trustees, exTrustee W. S. Vawter, Sr., a member of the grand jury, appeared before the board as a private clitzen and urged that instead of allowing the sum demanded by Trask the board appeal the case to the State Supreme Court. His remarks were accompanied by the statement that there had been reported remarks were accompanied by the statement that there had been reported to be crookedness in connection with the check. The latest reports from San Vicente Precinct, which includes Santa Monica Cafion, indicate it will give a McKinley majority. It has hitherto given Democratic majorities. The registration in that precinct is about 140.

Later developments in this town warrant the prediction that Santa Monica's three precincts will give greater majorities for McKinley than heretofore estimated. The majorities will probably amount to 100 or more.

A final celebration will be held in Santa Monica this evening by the McKinley Club of Los Angeles and the Americus Club of Pasadena. Supper will be served by the laddes of the Maccabees and the Woman's Relief Corps. Frank F. Davis will speak.

SAN DIEGO COUNTY.

REMENDOUS REPUBLICAN RALLY AND PARADE LAST EVENING,

Original Plan for Obtaining Votes Put in Effect by Mayor Carlson. Efforts of A.P.A. Leaders to Ald "Dr." Castle.

SAN DIEGO, Nov. 2 .- (Regular Corspondence.) The closing demonstra-on by the Republicans of the most notable campaign of education ever carried on in this city will occur to-night. The parade will be the grand-est ever held in the county. Capt. A. F. Dill is the grand marshal. There will be a novelty in this parade in the form of beautiful floats made out of flat-cars and operated on the line of the San Diego electric line. These floats will be brilliantly illuminated with electric lights. Wheelmen will with electric lights. Wheelmen will form one of the imposing parts of the great procession. Following the pa-rade the thousands of voters will rade the thousands of voters will gather on the Plaza to listen to the oratory of the Hon. Tom Fitch and the Hon. W. W. Bowers. On Saturday and today the demand for yellow ribbon badges has been so continuous as to cause surprise even among Republicans. This demand indicates a growth of the sound-money sentiment of late, which promises surprises for the Popocrats on Tuesday.

CARLSON CAUSES AMUSEMENT.

A so-called newspaper, published by Mayor Carlson to help along this independent Congressional causes amusement by its illustrations. Carlson has injected the portraits of himself and his wife and children into this campaign hand-bill. His three daughters stand hand in hand gazing daughters stand hand in hand gazing complacently from their pictorial perch in their pape's campalgin dodger. Beneath the feet of these Carlsonian babes is the inscription, "Please vote for Papa." This cheap dodge for the Mayor of San Diego to circulate broadcast is a commentary on the cheapness of the man who aspires to be Congressman. He also publishes a cheap-John letter promising laborers plenty of work, money, etc., if they vote for him. He omits to dwell on his relations with Collis P. Huntington, and his advocacy of the Southern Pacific for whom he is believed to be the pliant tool. Carlson's transparency is laughable.

THE A.P.A. BREAK.

THE A.P.A. BREAK. Popocrats have already seen the poor judgment of the A.P.A. leaders in the East in ordering the Southern Califor-nia A.P.A. voters to indorse "Dr." Cas-

nia A.P.A. voters to indorse "Dr." Castle. Popocrat papers have endeavored to circulate the idea that the orders in favor of Castle were a campaign fake. These papers have not succeeded. Many of the A.P.A. are too loyal to vote against Bowers, who fought for Old Glory, and favor Castle, who denounces soldiers of the regular army and of the National Guard as "assassins." They do not want a follower of Denis Kearney, who advocated the destruction of property, in place of Congressman Bowers, who advocates the protection of property from violence and from the devastating influence of cheap foreign labor.

This is a fact that has been mournfully mentioned by the residents of Lincoln, and it has again been emphasized in a letter received from a gentlemen living in that city, addressed to E. ful poll shows that the case has been exaggerated to a remarkable degree, as this precinct will cast more Republican votes than the same territory ever gave before. The most conservative estimate is McKinley, 100: Bryan, 137; doubtful, 23. A CELEBRATION.

Mr. and Mrs. C. A. Luckenbach entertained their friends on Angeleño Heights very charmingly last Friday evening, in celebration of hallowe'en. The house was decorated with pumpkin vines and lighted by jack o'lanterns. In the dining-room was a unique punch bowt made from an immense pumpkin, and filled with refreshing cider. On the table were nailoween apples, nuts and raisins. Progressive hearts was played, the favors being pumpkins filled with choice candies. Mrs. W. F. Botsford and Mrs. Spencer Millard won the first prizes, and Mr. and Mrs. Sessions the consolations. During the evening pumpkin pie and coffee were served. PROGRESSIVE LYCEUM LEAGUE. 'All honor to President Cleveland for sending troops to Chicago to put down Debsism two years ago, and likewise all honor to the honest Democrats who. all honor to the honest Democrats who, ignoring party lines, are going to assist honest Republicans in banishing Altgeldism and Tillmanism that Bryanism forever from the face of fair America. This is a campaign of self-preservation as well as one of education. National Democrats and Republicans, who are now practically in the same boat, must pull together with a regular and united stroke if they would escape a common downfall.

downfall.

In formally repudiating the Chicago platform the morning after its adoption, July 9, Charles A. Dana, in the editorial columns of the New York Sun, gave the following advice to Democrats, which they would do well to

democratic and it must remain so.

In the different States the State candidates for the mortified and disheartened members of the Democracy to follow are yet to be determined. In them the nucleus of Democratic regeneration must be found, But from now until the night of election day in November, 1896, the Presidential candidate of every Democrat who favors honest money and who still hopes to crush the enemies of the fundamental principles he was bred in should be, without hesitation, evasion or sop to prejudice, William Mc-Kinley."

MORENO (Cal.,) Nov. 1, 1896.—(To the Editor of The Times:) Let me call your attention to an error in the political designation of the illustrations on the first page of the second sheet of The Times of October 31.

"Jack" MacCall is the Republican carridate for Governor of Nebraska and Holcomb (the Incumbent,) is the Populist candidate. You have a recognizable likeness of both in your paper, and MacCall is as staunch a Republican as you will find under "Old Glory," or anywhere else. I am from Omaha, (three years ago.) and know MacCall personally, and know whereof I write. Very truly, FRANCE.
